RE: PUD Amendment-Parkdale

To Whom It May Concern:

OEO 2, LLC, (the 'Applicant') is pleased to submit this document requesting an Amendment to the existing Parkdale PUD. The location of Parkdale lies generally west of County Line Road and north of Baseline Road/HWY 7. This project consists of an area of approximately 260 acres that is located in the Town of Erie and has a land use designation of Low Density Residential.

General Project Concept & Purpose of the Request

The general project concept for all of Parkdale is for the design of a walkable neighborhood with a mix of alley loaded single family and paired homes. The purpose of this specific PUD Amendment request is to extend Village 8 to connect with what is currently depicted as Tract AR on the Filing 3 Final Plat (0.742 acres). This addition is south of the extension of Penner Drive. The Penner Drive extension to the Parkdale community will provide additional connectivity, and provide multiple connections to distribute traffic more efficiently, provide multiple routes, and allow pedestrians to move more freely through the community. This street will be designed to incorporate the planting of shade trees and tree lawns along streets, creating an attractive and comfortable pedestrian atmosphere. The anticipated Road extension will be compact in nature and is a logical extension of the Parkdale filing 3 neighborhood.

PROPOSED VARIATIONS FROM THE LR ZONE DISTRICT

The proposed variations in this PUD request relate specifically to dimensional requirements, specifically we anticipate simply utilizing the Village 8 dimensional standards as the area being added to Village 8 is likely to include 8 additional Duplex units. These units are anticipated to be the same product as currently planned in Village 8.

PUBLIC BENEFITS

The Public Benefits of the proposed PUD Amendment will benefit the surrounding neighborhood or the public in general to a significantly greater extent than would likely result from development of the site under straight zoning.

INTENSITY AND DENSITY OF USES PROPOSED

This should not increase the density or intensity of the surrounding uses.

PROPOSED DEVELOPMENT TIME-LINE

Land development is a complex process. As we are all aware, the current home building market has strengthened significantly from the previous recession. Erie is a strong market, with families desiring to live in this growing and thriving community.

The development team assembled for this project has been active in the metropolitan market for over 30 years, bringing to this project a significant amount of expertise to ensure that what we are proposing is flexible enough to be attractive to a number of high quality home builders. In addition, the proposal has been thoroughly thought through so that it complies with the Town of Erie's Comprehensive Plan, and is positioned for success as soon as the project can get to the market.

This part of the Parkdale neighborhood is anticipated to develop in one phase with a connection to the road network in the larger Parkdale community, and another connection to 119th Street. It is our hope begin construction in 2022. We believe that our estimate of the proposed development time-line is accurate based on the best market data that is available; however, ultimately the overall home builder market will determine when the project is developed.

EXISTING AND PROPOSED UTILITIES AND PUBLIC SERVICES

1. EXISTING UTILITIES

Dry Utilities

All necessary dry utilities are available within the existing street rights-of-ways adjacent to the Parkdale site. Meetings with the various providers have confirmed that the existing infrastructure is of sufficient size to serve the proposed Parkdale development. No offsite improvements for dry utilities are anticipated. Below is a list of the available providers.

Gas: Xcel Energy 1-800-481-4700

Electric: United Power 303-659-0551

Phone: Century Link 1-877-744-4416

Cable TV: Comcast 1-800-934-6489

Potable Water

Potable water will be provided by the Town of Erie. This site plan has been incorporated into the overall Parkdale utility plan.

Sanitary Sewer

Sanitary service will be provided by the Town of Erie. This site plan has been incorporated into the overall Parkdale utility plan.

2. PROPOSED UTILITIES

Dry Utilities

Dry utilities will be brought in from the existing lines located within the adjacent streets and run throughout site to individual lots via easements located along rights-of-ways and at the rear of the lots.

Potable Water

Potable water will be provided by the Town of Erie. This site plan has been incorporated into the overall Parkdale utility plan.

Sanitary Sewer

Sanitary service will be provided by the Town of Erie. This site plan has been incorporated into the overall Parkdale utility plan.

RELATIONSHIP TO EXISTING LAND USE AND ADJACENT PROPERTIES

This addition to the Parkdale community is a logical extension of Village 8 now that the location of Penner Drive is known, this parcel would have been a left over parcel.

Directly to the west of 119th is The Great Park Dog Park. Trails lead from this park area to the west and connect to the Lafayette Recreation Center as well as Boulder Valley School Districts Pioneer Elementary School, the trails disperse to the north as well. In addition, directly to the east of the property the proposed spine trail will connect to the trail that runs along Coal Creek, heading south under East Baseline Road/ Highway 7 to the Anthem community, and north connecting to several existing neighborhoods, as well as providing access to the Erie Recreation Center, and continuing north into downtown Erie. Parkdale will be providing a spine trail connection to link the trails from the east to the Coal Creek trail to the west, the Parkdale project will be providing a grade separated crossing of County Line road as well. It is anticipated that the surrounding properties will develop in a similar manner and density as Parkdale.

TOWN'S COMPREHENSIVE PLAN AND ZONING APPROVAL CRITERIA

The Penner Thero property that includes this PUD Amendment, is part of the larger Parkdale community. Before this submittal was made, and at the request of Town Staff, the applicant proposed a Comprehensive Plan Amendment for this general area, thereby ensuring that this proposal is consistent with the Town's Comprehensive Plan.

1. The PUD Rezoning is consistent with the purpose of the PUD Overlay district in Section 2.7.D.2 of Municipal Code, Title 10, Unified Development Code;

The purpose of this proposed PUD Amendment is to allow for the development of the proposed walkable, compact, rear loaded, housing types that would be precluded from inclusion within the overall Parkdale community without the requested amendment.

2. Ensure orderly and thorough planning and review procedures that will result in high-quality urban design;

This PUD Amendment is part of a comprehensive application that will include the full scope of the application all the way through to the Final Plat, this will ensure the orderly and thorough planning and review of this application that will ultimately result in high quality urban design.

3. Encourage variety and avoid monotony in large developments by allowing greater freedom in selecting the means to provide access, light, open space and amenity.

This PUD Amendment will absolutely encourage variety within the Parkdale community by allowing a unique mix of housing styles that are organized around a rear loaded garage configuration, with many homes fronting directly on to green space and open space amenities.

4. Provide a mechanism for considering mixes of uses that can be made compatible by application of careful imaginative treatment of interrelationships of activity.

The proposal is intended to allow for a unique residential addition to the overall Parkdale community, the residential uses are compatible with the other residential uses within the community, but allow a greater level of choice for residents within the overall community.

5. Encourage allocation and improvement of common open space in residential areas, and provide for maintenance of the open space at the expense of those who directly benefit from it.

This PUD Amendment extends Village 8, Village 8 includes areas of open space for the benefit of the surrounding neighborhood, as well as an extension of an important Spine Trail corridor that benefits the residents of the Town at large. As part of a comprehensive application we have made it clear that the smaller open space areas that primarily benefit the residents directly surrounding these areas will maintain those open space areas, and the Spine Trail that benefits the larger community will ultimately become part of the Town's trail network.

6. To convert land so poorly developed as to be a public liability.

The current condition of the land would end up being an orphaned parcel to the east of the existing Village 8, and south of Penner Drive.

7. Encourage the preservation of serviceable existing structures of historic value or artistic merit by providing the opportunity to use them imaginatively for purposes other than that for which they were originally intended.

This is not applicable to this application.

8. Encourage the assembly of properties that might otherwise be developed in unrelated increments to the determinant of surrounding neighborhoods.

The overall Parkdale community is an assembly of properties so that they can be developed into a cohesive Master Planned community with open space and park amenities for the overall community.

9. To simplify processing of development proposals for developers and the Planning Commission by providing for concurrent review of land use, subdivision, public improvements and siting considerations.

This PUD Amendment will be part of a concurrent review including a full Site Plan with the associated construction documents and reports.

The location, function and ownership/maintenance of public and private open space, parks, trails, common areas, common buildings.

This PUD Amendment is related specifically to the Penner/Thero addition to the Parkdale community. In general. The only Town Maintained open space in this proposal is anticipated to be the Public Right of Way.

MINERAL RIGHTS AND PROJECT RESTRICTIONS

There is one existing well on the Penner Thero portion of the Parkdale property that is owned and operated by 8 North, LLC (Extraction, LLC). This well has been abandoned as part of the Parkdale community SUA.

Thank you for your consideration of the project and we look forward to reviewing the plans with the Town of Erie.

Sincerely,

OEO 2, LLC
