Open Space	17	4.12	9.678-acres provided in adjacent Filing No. 7

UDC Section 10.7.7.D.2

- a. The subdivision is generally consistent with the Town's Comprehensive Master Plan.
- b. The subdivision is generally consistent with and implements the intent of the specific zoning district in which it is located.
- c. The general layout of lots, streets, driveways, utilities, drainage facilities, and other services within the proposed subdivision is designed to meet the Town's standards related to health and safety and in a way that minimizes the amount of land disturbance, maximizes the amount of open space in the development, preserves existing trees/vegetation and riparian areas, protects critical wildlife habitat, and otherwise accomplishes the purposes and intent of this UDC.

- d. The subdivision complies with all applicable use, development, and design standards set forth in Chapters 3, 5 and 6 of this UDC that have not otherwise been modified or waived pursuant to this Chapter or this UDC. Applicants shall refer to the Development Standards in Chapter 5 of this UDC and shall consider them in the layout of the subdivision in order to avoid creating lots or patterns of lots in the subdivision that will make compliance with such development and design standards difficult or infeasible.
- e. The subdivision complies with all applicable regulations, standards, requirements, or plans of the Federal or State governments and other relevant jurisdictions, including but not limited to wetlands, water quality, erosion control, and wastewater regulations.

- f. The subdivision will not result in significant adverse impacts on the natural environment, including air, water, noise, storm water management, wildlife, and vegetation, or such impacts will be substantially mitigated.
- g. The subdivision shall be integrated and connected, where appropriate, with adjacent development through street connections, sidewalks, trails, and similar features.
- h. The subdivision will not result in significant adverse impacts on adjacent properties, or such impacts will be substantially mitigated.

- Adequate and sufficient public safety, transportation, utility facilities and services, recreation facilities, parks, and schools are available to serve the subject property, while maintaining sufficient levels of service to existing development.
- j. As applicable, the proposed phasing plan for development of the subdivision is rational in terms of available infrastructure capacity.

Public Hearings & Notice

Neighborhood Meeting 6/12/2025

Planning Commission Public Hearing 9/17/2025

Public Notice of Town Council Hearing

Published in the Colorado Hometown Weekly: 10/08/25

Property Posted: 10/10/25

Letters to Adjacent Property Owners: 10/10/25

Staff Recommendation

Staff find the application complies with the Preliminary Plat approval criteria and recommend the Town Council adopt a Resolution approving the Preliminary Plat with the following conditions of approval, all of which shall be satisfied prior to approval of future Final Plat(s) for the Property:

- a. Applicant shall execute a Development Agreement in the form provided by the Town.
- b. Applicant shall make technical corrections to the Preliminary Plat and related documents as directed by Town staff.
- c. Applicant shall make corrections to the maintenance access to the water quality pond related to comments by the Town Engineering Division.
