FLATIRON MEADOWS PLANNING AREA H

SKETCH PLAN SUBMITTAL

TOWN OF ERIE, COLORADO

SKETCH PLAN OVERVIEW

The Flatiron Meadows Sketch Plan application provides detail for a portion of the development that has been reconfigured in order to provide an alternative housing option that was not previously offered. The entire development is located within the Town of Erie, Colorado. The development site is north of Arapahoe Ridge Subdivision, South of Erie Parkway and between existing North 111th Street to the west and Flatiron Meadows Boulevard to the east. The site is zoned Suburban Residential with an approved PUD Overlay provided as an exhibit with this submittal for reference. The Development Agreement will work in tandem with the Preliminary/Final Plats and define improvements associated with the phase. The approved Preliminary Plat will be used as the primary reference for confirming consistency of this revised Preliminary Plat application with the approved master plan.

Traditional community design principles will create a vibrant neighborhood while maintaining Erie's character. The overall development generally orientates residential lots towards neighborhood parks and open space areas to encourage interaction between community residents. The area being revised is in close proximity of a planned neighborhood park and trail connections will be brought to the site. Tree lined streets, pocket parks, and trail corridors form a network of open space provide an overall framework for the development as well as a valuable recreation amenity. The property is two miles from Erie's Central Business District (CBD), and will provide support to local commercial interests.

The Sketch Plan submittal incorporates recommended changes, modifications, and conditions as set forth during the original Preliminary Plat approval process. This Sketch Plan submittal provides detail necessary for platting 118 duplex lots and define major road and open space corridors. The applicant will continue the platting process with a series of phased Final Plat submittals for specific phases of development. Each phased plat submittal will provide the necessary construction drawings for improvements associated with that phase.

TOWN OF ERIE, COLORADO

BASIC OBJECTIVES AND CONCEPTS

The overall development of Flatiron Meadows is intended to be a complete neighborhood, with a well-connected network of public streets, diverse housing, a generous open space system, neighborhood park, fire station, and public school. The residential diversity will provide quality housing for a broad range of incomes and lifestyles. Architecture will meet and exceed standards established in the area, and will complement existing neighborhoods. The urban design principles reflected in Flatiron Meadows are consistent with Erie's Comprehensive Plan. The following principles were incorporated in the site design with this specific area adding to the development by providing diversification to the housing:

- Diverse product and architectural variation creating an extensive range of products for various lifestyles and budgets. The Proposed development will conform to the architectural variation guidelines as set forth in Section 6.7 Residential Building of the UDC.
- A balanced approach to development with an emphasis on preserving and enhancing the open space amenities with the use of buffers, product orientation, neighborhood trails and active/passive parks.
- Community wide pedestrian connectivity via regional and neighborhood trails to adjacent neighborhoods.
- Provides efficient infrastructure with convenient access to an on-site fire station and school.
- Close proximately to the Town of Erie CBD and commercial areas proposed along County Line Road and Erie Parkway.

TOWN OF ERIE, COLORADO

DEVELOPMENT SUMMARY

The Flatiron Meadows Sketch Plan includes the one hundred eighteen duplex lots east of 111th Street and west of Flatiron Meadows Boulevard. The mix of land uses within this Preliminary Plat area consists of the following elements.

Residential Lots – 118 Lots (6.4 du/ac)

Open Space – 6.79 acres (Non-dedicated)

Street and Right-of-Way – 3.08 acres

- All streets will be designed to the Town of Erie standards and all ROW areas will be dedicated for public use.

Water Distribution

- The proposed Flatiron Meadows development is planned to be served by the Town of Erie Water Distribution System. The proposed water system complies with the Town of Erie Water Master Plan 2013. This phase will tie into the existing system in two locations to provide a water loop for this phase.

Sanitary Sewer System

- The proposed Flatiron Meadows development is planned to be served by the Town of Erie sanitary sewer system. The sanitary sewer system implements a portion of the Town of Erie Wastewater Utility Master Plan 2013. The proposed sanitary sewer outfall system ties into the Town of Erie's existing system in one location.

Utility Sources

- The proposed Flatiron Meadows development is proposing the following utility sources:
 - o Electric – Xcel Energy
 - o Gas – Xcel Energy
 - o Telephone – Century Link
 - o Cable TV – Comcast

Fire Protection

- The proposed Flatiron Meadows development is located within the Mountain View Fire Protection District (MVFPD). The community infrastructure follows the design criteria required by the MVFPD.
