Projects

Land Use Applications

In February 2021, Planning had a total of 54 land use applications in process; below is the breakdown of applications by type. In February 2021, 5 new land use applications were submitted to Planning. The land use application project type details can be found in the Development Application List on the Development Review page.

<https://www.erieco.gov/329/Development-Review>

PLANNING DIVISION

Pre-Application Meetings

In addition to our formal land use applications listed above, the Planning staff often meets with potential developers in pre-application meetings to discuss a concept or idea for development and Planning provides guidance on our Code requirements and what formal land use applications the developer should apply for. In February 2021, the Planning staff received 2 Pre-applications for the following projects/properties:

1. Erie Commons Filing 4 – Ziggy's Coffee
2. Vista Ridge – Golf Club Maintenance Facility

Special Updates

Town Website

Here is a link to the Planning Division pages on the Town website <https://www.erieco.gov/111/Planning-Division> The Planning provides a variety of accessible resources to the public and our development community to address the Board of Trustees priority to provide Effective Governance. The February updates to the Planning Division webpage include:

- Planning worked with GIS to update the Residential Development Activity map. The map can be found using the following link <https://town-of-erie-co-new-site-erieco.hub.arcgis.com/>
- Planning's Interactive Development Activity Map is continually being updated with new and revised land use applications that we have in process. The map can be found using the following link <https://town-of-erie-co-new-site-erieco.hub.arcgis.com/> When you click on the project shape on the map it pulls up an information block and all the land use application materials that have been submitted by the applicant. Additionally, projects that have recently been approved and have started construction are left on the page until they are completed.

UDC Amendment Phase 2

Planning staff is working on the Phase 2 edits to the Unified Development Code. The focus of Phase 2 will be Chapters 4 – Dimensional Standards, 6 – Development and Design Standards, 7 – Review and Approval Procedures, 9 – Non-Conformities, 11 - Definitions and a separate, illustrated Development Design Standards document.

PLANNING DIVISION

2021 Comprehensive Plan Amendment

The top priority for the Board of Trustees for 2021 is to begin a major amendment to the Town's Comprehensive Plan. The Request for Proposal (RFP) to select a consultant team to lead the Town through the Amendment process was issued on March 12th. Interviews for finalist will be held at a May 18th study session that will include the Board of Trustees, Planning Commission and a staff technical committee.

DOLA Grant

Staff submitted a DOLA Energy/Mineral Impact Assistance Fund Grant (EIAF) application for work on a Comprehensive Plan Amendment. The grant request was for \$200,000 in matching Town funds. Award letters are sent in May with final contracts typically granted mid-summer.

Comprehensive Plan Map and Zoning Map Amendments

In April, Planning staff will be presenting a simple Comprehensive Plan map amendment to provide an update that reflects the land use changes that have occurred by approved zonings. The map amendment will also include changes to school locations/status and to the airport influence area that was amended with the Airport Master Plan.

Concurrently with the Comprehensive Plan map amendment, Planning staff will also be presenting a Zoning map amendment to reflect the change to the airport influence area.

PLANNING DIVISION

Staff Updates

2021 has kicked off, and Engineering has continued to experience a high volume of work. The Engineering Department continues to operate exceptionally well. Below I have outlined some updates and some much deserved recognition for the Engineering team:

Updates:

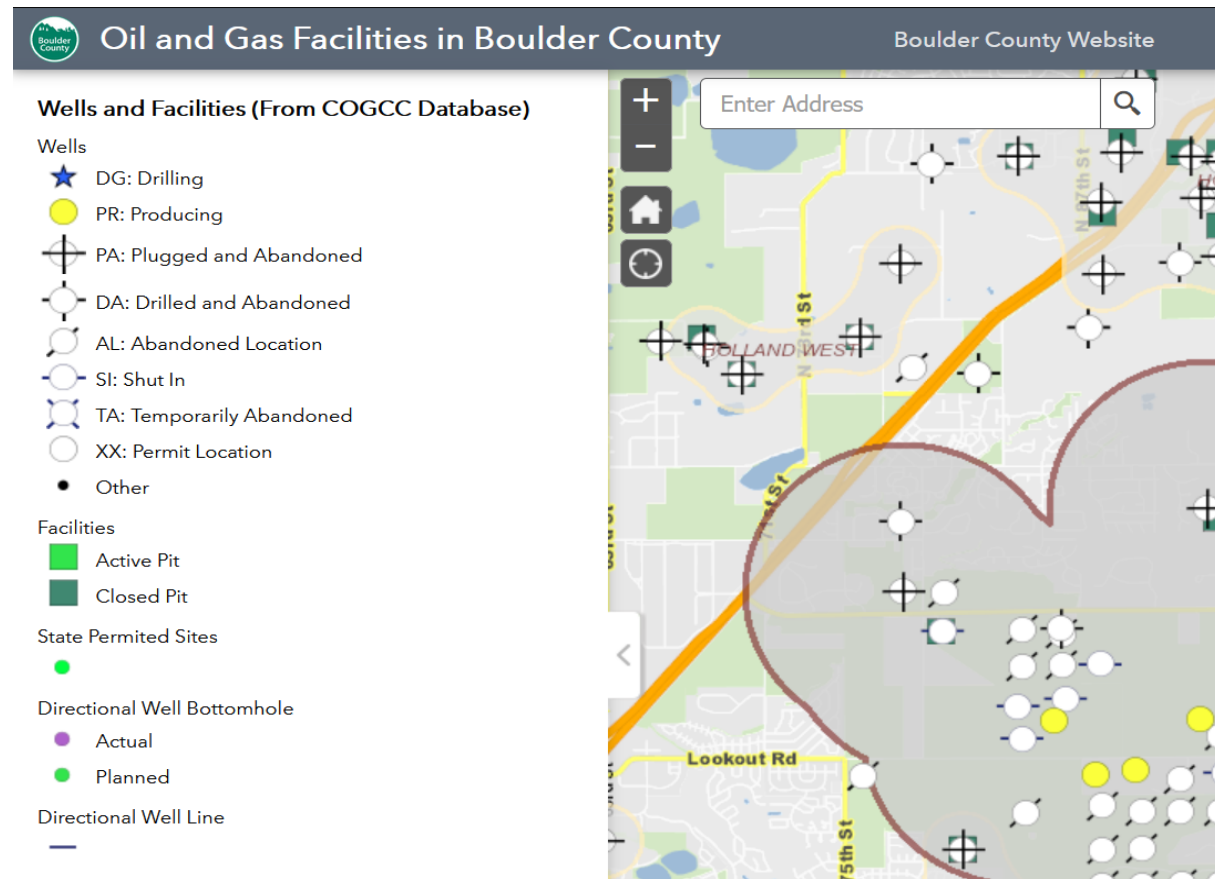

- Traffic Engineer interviews scheduled.
- Posted for Construction Inspector Position.
- Chad Schroeder – Chad has continued to help coordinate between CDOT and Parkdale to begin construction. He has also been diligently working with the Parkdale Development on their next phases!
- Wendi Palmer – Wendi is coordinating with CDOT on the IGA for our County Line Road Project as part of Safer Main Streets. She also has three new waterline projects underway!
- Tyler Burhenn – Tyler is working on the RFP for our signal communication project. He also continues to grow in his expanded role in the Development Review team. He has also signed up for his PE Exam! We wish him luck and know he will do great!
- Misty Hall – Misty has been working on getting the Annual Report out for our MS4 Permit, and she has also been working on the education and outreach program for MS4.
- Zachary Ahinga – Zachary has taken on the Town Center Roundabouts project. He has gotten the RFP out for Final Design and has scheduled a BOT date to award the Final Design, so we can get underway! From there, he will move forward with taking the north roundabout out to bid for construction.
- Jesse Ascunce and Daniel Borrastero– All they do is help! I cannot say this enough. They are assisting now with Oil and Gas mapping for the Town. They also have been working to continue to improve our GIS server for all residents and staff.
- Jason Mraz and Corey Kuehner – They have brought several new developments online as well as bringing several Filings through to Final Acceptance. They continue to be a top notch team!
- Dave Noell – Dave has announced to us that he feels that it is time for him to retire. We truly appreciate all of the hard work he does and the positive attitude he has brought to our team. We wish him well and a happy retirement.

GEOGRAPHIC INFORMATION SYSTEMS DIVISION

GIS Projects

1. Oil & Gas Public App

Our GIS Technician has been preparing an oil and gas app that is specific to Erie which will pull data straight from COGCC's open data. This app will be modeled after one created by Boulder County. See example below:

GEOGRAPHIC INFORMATION SYSTEMS DIVISION

2. Historic Preservation Advisory Board

- Our GIS technician has also been working on a story map to showcase Erie's history. It includes a guided walking tour of historic landmarks in Erie. Click on the screen shot below to redirect to the app:

3. CDOT HUTF Submission

- HUTF has been completed and officially submitted. We added approximately 2.5 additional miles of eligible roadway for HUTF this year.

4. Addressing for tenant spaces

- GIS will be working with the building department to establish procedures to pre-assign tenant unit numbers so after a lot has been given an address and tenants begin to come online, building will have those numbers ready to go.

GEOGRAPHIC INFORMATION SYSTEMS DIVISION

5. BAS

- BAS will be kicking off soon. We need submit updated boundaries and annexation information to the federal government by the beginning of March.

6. Tree Inventory

- GIS has been working on building a scalable data archiving process for completing periodic tree inventories. Our town foresters have had a functioning app for the last inventory which began in 2018. However a new data structure and process was required so that the previous year's inventory data could be archived and related back to the original treeID if necessary. Daniel designed the new look and feel of the app for data collection and it is now live.

GEOGRAPHIC INFORMATION SYSTEMS DIVISION

7. Single Track 3D Map for Trailhead

Work for this map is coming to a close. Parks will use the final trail map design, and have a printing company create the signage for the trailhead at Sunset East. This project has allowed Jesse time to explore new mapping tools in ArcPro, as well as test out the new hardware environment which will support ArcPro for our next reserved desktops beginning in April 2021.

People

1. Time to thank Daniel! As you can tell, he has been pivotal in carrying out the latest web needs that have been requested. He has become even more proficient in creating maps and apps in web format which has been extremely helpful. In addition, with all of his hard work last year to improve our annual maps processes, he has shaved hours, and possibly days off of the creation of our annual maps this year. In particular, He has improved the creation of the Street Guide map, which became a bit more challenging to maintain after our server upgrade. Great work last month Daniel!

BUILDING DIVISION

Special Update

The month of December 2020 saw a large volume of single family dwelling (SFD) building permit applications (58) received by the Building Division typically seen at the end of each calendar year to avoid possible new year building permit fee increases. Small residential projects continue to be eligible for our weekly “rapid review” by appointment only.

Old Town Restaurant Outdoor Dining Structures (Tents)

Building Division staff

The Building Division inspection staff of Richard Budnick (Inspector III) and James Jaramillo (Inspector II) continue to conduct virtual (Zoom) inspections of permitted work being performed within occupied dwelling units for the health safety of our inspection staff and Town residents during the ongoing public health pandemic. The inspectors have demonstrated and proven outstanding external customer service by this “alternative” inspection method.
