Attn: Hannah Hippely

RE: GRE Vista Parkway

Dear Hannah,

This project, due to the proximity to the runway at the Erie Municipal Airport, may require an Obstruction Evaluation/Airspace Analysis to be performed to confirm that the project does not interfere with airspace reserved for the safe operation of aircraft at the airport.

The FAA states that any person/organization who intends to sponsor any construction or alteration within 20,000 ft of a public use or military airport which exceeds a 100:1 surface from any point on the runway of each airport with its longest runway more than 3,200 ft must notify the Administrator of the FAA.

Please refer to FAA Form 7460-1 and Form 7460-2 for additional information.

In the event that any construction project requires construction equipment, i.e. cranes, pumps, etc., that exceeds the height of the construction project, the equipment must be flagged during the day and lighted if in place at night. In addition, the Airport Manager requires 48 hours prior notification of the installation of the equipment so that the appropriate NOTAMs (Notice to Airmen) can be put in place.

Regards,

Subject: Project: GRE Vista Parkway - Verizon Wireless referral

Good morning Hannah,

Thank you for allowing United Power, Inc. the opportunity to review and comment on the GRE Vista Parkway - Verizon Wireless referral. United Power, Inc. appreciates the planned 5' utility easement to the leased area.

United Power, Inc. owns and maintains electric facilities in the area. Developer must contact United Power for new service installation or modification of existing facilities.

Thank you,
Marisa

Subject: Disapproval of new cell tower

Hello,

I wanted to register my disagreement with the possibility of putting a cell tower at 2700 Vista Parkway. We already get great cell service (AT & T, Verizon, T-Mobile and more) and I don't think we need the potential health risks of a tower. This issue doesn't appear from quick research to have been studied enough to know for certain. Thank you for your consideration,

Melissa Salman

Subject: VR HOA feedback on cell phone addition at golf course

Good Afternoon Planning Commission,

I understand the proposal to install an addition to the golf course facility to house cell phone antennas is coming to you for approval. I wanted to provide feedback I had given to the architect about this from the HOA's perspective. The drawings we had seen a couple months ago shows basically a box on top of the existing clubhouse. Not sure if any changes or mods have happened since our last communication but the HOA does have some concerns on the look of this. While it may conform to the general look of the existing structure, it looks like an obvious afterthought addition. Our first recommendation we would prefer is for them to install a fake tree tower instead of this building addition. If it has to be the addition, we are requesting that they install fake windows to make it look more like the rest of the structure. To us, the design we reviewed looks like they are trying for the cheapest solution possible and we believe it short changes the rest of the course and does not reflect the quality of the community.

If any of you have questions, please feel free to reach out to me and I'd be happy to discuss. Thank you for your time!

David
