FLATIRON MEADOWS PLANNING AREA H

PRELIMINARY PLAT SUBMITTAL

TOWN OF ERIE, COLORADO

PRELIMINARY PLAT OVERVIEW

The Flatiron Meadows Preliminary Plat application provides detail for a portion of the development that has been reconfigured in order to provide an alternative housing option that was not previously offered. The entire development is located within the Town of Erie, Colorado. The development site is north of Prince Lake No. 2, South of Erie Parkway and between existing North 111th Street to the west and Flatiron Meadows Boulevard to the east. The site is zoned Suburban Residential with an approved PUD Overlay. The intent of the Preliminary Plat is to provide preliminary grading, utility and roadway construction plans for improvements associated with this phase of development. The Development Agreement will work in tandem with the Preliminary Plat and define improvements associated with the phase. The approved Preliminary Plat will be used as the primary reference for confirming consistency of this revised Preliminary Plat application with the approved master plan.

Traditional community design principles will create a vibrant neighborhood while maintaining Erie's character. The overall development generally orientates residential lots towards neighborhood parks and open space areas to encourage interaction between community residents. The area being revised is in close proximity of a planned neighborhood park and trail connections will be brought to the site. Tree lined streets, pocket parks, and trail corridors form a network of open space provide an overall framework for the development as well as a valuable recreation amenity. The property is two miles from Erie's Central Business District (CBD), and will provide support to local commercial interests.

The revised Preliminary Plat submittal incorporates recommended changes, modifications, and conditions as set forth during the original Preliminary Plat approval process. This Preliminary Plat submittal provides detail necessary for platting 118 duplex lots and define major road and open space corridors. The applicant will continue the platting process with a series of phased Final Plat submittals for specific phases of development. Each phased plat submittal will provide the necessary construction drawings for improvements associated with that phase.

BASIC OBJECTIVES AND CONCEPTS

The overall development of Flatiron Meadows is intended to be a complete neighborhood, with a well-connected network of public streets, diverse housing, a generous open space system, neighborhood park, fire station, and public school. The residential diversity will provide quality housing for a broad range of incomes and lifestyles. Architecture will meet and exceed standards established in the area, and will complement existing neighborhoods. The urban design principles reflected in Flatiron Meadows are consistent with Erie's Comprehensive Plan. The following principles were incorporated in the site design with this specific area adding to the development by providing diversification to the housing:

- Diverse product and architectural variation creating an extensive range of products for various lifestyles and budgets. The Proposed development will conform to the architectural variation guidelines as set forth in Section 6.7 Residential Building of the UDC.
- A balanced approach to development with an emphasis on preserving and enhancing the open space amenities with the use of buffers, product orientation, neighborhood trails and active/passive parks.
- Community wide pedestrian connectivity via regional and neighborhood trails to adjacent neighborhoods.
- Provides efficient infrastructure with convenient access to an on-site fire station and school.
- Close proximately to the Town of Erie CBD and commercial areas proposed along County Line Road and Erie Parkway.

DEVELOPMENT SUMMARY

The Flatiron Meadows Preliminary Plat includes the one hundred eighteen duplex lots east of 111th Street and west of Flatiron Meadows Boulevard. The mix of land uses within this Preliminary Plat area consists of the following elements.

Residential Lots – 6.60 acres (118 Lots)

Open Space – 8.59 acres

- These designated areas as shown on the Preliminary Plat include a landscape buffer along 111th Street as shown on the original Preliminary Plat. Tracts adjacent to the drainage corridor will include minimal landscape improvements to maintain the native vegetation and minimize the water usage. Preliminary Landscape Construction Plans define the open space improvements for this phase of the development. Detailed landscape construction documents will be provided in conjunction with each phased plat submittal to address irrigation, construction detailing, landscape grading and associated details.

Street and Right-of-Way – 3.21 acres

- All public streets will be designed to the Town of Erie standards. All ROW areas will be dedicated for public use.

Water Distribution

- The proposed Flatiron Meadows development is planned to be served by the Town of Erie Water Distribution System. The proposed water system complies with the Town of Erie Water Master Plan 2013. This phase will tie into the existing system in two locations to provide a water loop for this phase.

Sanitary Sewer System

- The proposed Flatiron Meadows development is planned to be served by the Town of Erie sanitary sewer system. The sanitary sewer system implements a portion of the Town of Erie Wastewater Utility Master Plan 2013. The proposed sanitary sewer outfall system ties into the Town of Erie's existing system in one location.
