Minor Subdivision/Planned Development
Lot 1 Erie Airpark Replat D Minor Subdivision and PD
MS-001121-2019 & PUD-001122-2019

Dear Mr. LaRue:

This letter has been prepared in response to our recent correspondence regarding the above referenced site. As you are aware, we held a Neighborhood Meeting on Tuesday, May 17, 2022, at the office of Nassar Development. Virtual accommodations were also made for people who could not join in person. The purpose of the meeting was to discuss the nature of the project with the neighborhood and general interested parties.

The required Neighborhood Meeting Notice was sent to all of the property owners within 500' of the subject property. Mailings were sent on Friday, April 29, 2022, 18 days before the scheduled meeting. See the attached Weld County Buffer Report and Neighborhood Meeting Notice.

Two public notice signs were posted. One was placed at the northwest corner of Airport Drive and Baron Court. A second sign was placed along Airport Drive, at the south side of the site. The signs were posted on Friday, April 29, 2022, 18 days before the scheduled meeting. See attached Affidavit of Posting for photo documented locations of the two signs.

The meeting was attended by roughly 10-12 people from various areas of the airport neighborhood. See the attached sign in sheet for specific attendee details.

The following is a brief summary of the items discussed at the meeting:

1. Project was presented by Donald P. Ash, P.E. with SiteWorks, and David Nassar with Nassar Development. The site plan was presented along with building floor plans and elevations.
2. After the presentation, there was some discussion about gates securing taxiway. Some attendees wanted to make sure taxiway was secure and separated from the non-aviation areas.
3. There were some questions about the proposed PD zoning. What is included with PD zoning? We run down the allowed uses proposed under

the Planned Development. These are the same uses that are allowed at the existing Flight Business & Air Park.

4. Mr. Ash discussed the scope of the utility mains extensions associated with the project.
5. There were some questions of the sewer mains and how the proposed buildings would be provided sewer service. HOA was interested if they could connect the existing buildings.
6. Some discussion around the operations of the existing Flight Business & Air Park. Many of the attendee's own units in the existing business park.
7. The Airport Manager discussed the desire for consistency between the two different developments with respect to signage and taxiway access.
8. Discussion with taxiway width. 54' wingspan Pilatus. 48' on DA-62. The proposed taxiway is 60' clear.
9. Some general discussion around aircraft operations, foreign object debris, thru the fence fees, snow removal, uses, hangar rent, length of runway, grants, future entrance roads and parking.

This was our summary of the neighborhood meeting. Should you have any questions or comments concerning this letter, kindly give us a call.

Sincerely,

A handwritten signature in black ink, appearing to read 'Donald P. Ash', with a stylized flourish at the end.

Donald P. Ash, P.E.
Principal – SiteWorks
