IV. Responsibility

A. Contractor hereby warrants that it is qualified to assume the responsibilities and perform the Scope of Work and has all requisite corporate authority and licenses in good standing, required by law. The work performed by Contractor shall be in accordance with generally accepted practices and the level of competency presently maintained by other practicing contractors in the same or similar type of work in the applicable community.

B. The Town's review, approval or acceptance of, or payment for any Work shall not be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

C. Contractor shall at all times comply with all applicable law, including without limitation all current and future federal, state and local statutes, regulations, ordinances and rules relating to: the emission, discharge, release or threatened release of a Hazardous Material into the air, surface water, groundwater or land; the manufacturing, processing, use, generation, treatment, storage, disposal, transportation, handling, removal, remediation or investigation of a Hazardous Material; and the protection of human health, safety or the indoor or outdoor environmental, including without limitation the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. § 9601, *et seq.* ("CERCLA"); the Hazardous Materials Transportation Act, 49 U.S.C. § 1801, *et seq.*; the Resource Conservation and Recovery Act, 42 U.S.C. § 6901, *et seq.* ("RCRA"); the Toxic Substances Control Act, 15 U.S.C. § 2601, *et seq.*; the Clean Water Act, 33 U.S.C. § 1251, *et seq.*; the Clean Air Act, 42 U.S.C. § 7401, *et seq.*; the Occupational Safety and Health Act, 29 U.S.C. § 651, *et seq.*; all applicable environmental statutes of the State of Colorado; and all other federal, state or local statutes, laws, ordinances, resolutions, codes, rules, regulations, orders or decrees regulating, relating to, or imposing liability or standards of conduct concerning any hazardous, toxic or dangerous waste, substance or material, as now or at any time hereafter in effect.

V. Ownership

Any materials, items, and work specified in the Scope of Work, and any and all related documentation and materials provided or developed by Contractor shall be exclusively owned by the Town. Contractor expressly acknowledges and agrees that all work performed under the Scope of Work constitutes a "work made for hire." To the extent, if at all, that it does not constitute a "work made for hire," Contractor hereby transfers, sells, and assigns to the Town all of its right, title, and interest in such work.

The Town may, with respect to all or any portion of such work, use, publish, display, reproduce, distribute, destroy, alter, retouch, modify, adapt, translate, or change such work without providing notice to or receiving consent from Contractor.

No additional insured endorsement shall contain any exclusion for bodily injury or property damage arising from completed operations.

B. Such insurance shall be in addition to any other insurance requirements imposed by law. The coverages afforded under the policies shall not be canceled, terminated or materially changed without at least 30 days prior written notice to the Town. In the case of any claims-made policy, the necessary retroactive dates and extended reporting periods shall be procured to maintain such continuous coverage. Any insurance carried by the Town, its officers, its employees, or its contractors shall be excess and not contributory insurance to that provided by Contractor. Contractor shall be solely responsible for any deductible losses under any policy.

C. Contractor shall provide to the Town a certificate of insurance as evidence that the required policies are in full force and effect. The certificate shall identify this Agreement.

VII. Indemnification

A. Contractor agrees to indemnify and hold harmless the Town and its officers, insurers, volunteers, representatives, agents, employees, heirs and assigns from and against all claims, liability, damages, losses, expenses and demands, including attorney fees, on account of injury, loss, or damage, including, without limitation, claims arising from bodily injury, personal injury, sickness, disease, death, property loss or damage, or any other loss of any kind whatsoever, which arise out of or are in any manner connected with this Contract, to the extent that such injury, loss or damage is attributable to the act, omission,

Exhibit A Scope of Work

Summary of Scope

This scope of work includes repair failed concrete slide staircase based on structural engineer evaluations provided in the letter dated March 04, 2023, and observations made by the contractor at the site visit completed on 02/06/2023 and in accordance with Work Order #23-TOE-0006.00.

Detailed Scope of Work

Demolition:

- Grind existing concrete staircase and columns to remove existing layers of coatings.
- Cut out existing concrete around all exposed rebar areas.
- Cut out rebar that is exposed and failed.
- Cut and remove 2' of existing column supporting the slide along the window, due to cracking in structural column.
- Remove/support column during column repairs.
- Remove waterslide support arms for concrete repairs.
- Remove existing handrailing system. (Save for reinstallation and new paint coat).

Concrete Staircase Repair:

- Install dowels where concrete was cut out around failed rebar.
- Install new green rebar where existing regular rebar is failed.
- Replace/repair concrete using structural repair concrete patching material.
- Repair removed concrete column along the wall.

Top of the Staircase and Landings Coating Only:

- Provide and install moisture mitigation (Barrier One) on all-existing concrete prior to epoxy installation.
- In all areas where our finish is to be installed, we will also key in a ¼" groove at all perimeters at 6" from the wall, around all floor drains and clean outs, and doorways.
- Fill all cracks and divots (not the control joints) with EZ Patch epoxy paste joint filler and create a concrete surface profile of 3.0 which is appropriate to the UC application.
- Install 2-part epoxy using the 2 coats method.
- Install double-broadcast quartz system installation with 2-part epoxy.
- Install chemical resistant polyaspartic as the grout coat and topcoat as a finish coat.

Bottom of the Staircase and Landings Only:

- Provide and install moisture mitigation (Barrier One) on all-existing concrete prior to epoxy installation.
- Apply new 1 coat epoxy primer to all concrete surfaces.
- Apply new 2 coats epoxy paint on all concrete surfaces.

General Conditions Construction:

- Build containment around slide floor to ceiling.
- Build dust control barricade system for dust control for the duration of the project.
- Install scaffolding around work area.
- Provide and install manlift for the duration of the project.
- Vacuum floors.
- Remove debris off the jobsite.
- Reinstall existing slide where the column was repaired.
- Reinstall existing handrailing system.
- Paint handrailing system yellow to match original color as close as possible.
- Power wash all walls, floors, HVAC, and windows.
- Demobilize all and equipment.
- Protect all existing surfaces during repair work.

Summary of Scope of Work for Concrete Repairs:

All failed areas will be grinded down and rebar exposed will be repaired/replaced. Rebar that is not failed but exposed will receive Miramax metal sealer. We will use green coated dowels and replacement rebar as needed, where rebar is fully failed and must be removed. Failed column by the windows supporting the waterslide, will be cut down and repaired using structural 5000psi concrete. All areas that were repaired previously by others will be grinded down and repaired with structural repair concrete patching compound.

Summary of Scope of Work for Epoxy coatings:

The first stage of work will consist of substrate preparation. The substrate is assumed to be adequate for receiving the epoxy systems with standard preparatory practice. This includes diamond grinding the floor to remove all surface contaminants and to create a more consistent level to the concrete with a planetary orbital diamond grinder; filling all cracks and divots (not the control joints) with EZ Patch epoxy paste joint filler and creating a concrete surface profile of 3.0 which is appropriate to the UC application. In

all areas where our finish is to be installed, we will also key in a ¼" groove at all perimeters at 6" from the wall, around all floor drains and clean outs, and doorways. We will be treating the stairs leading to the slide but will only be treating the risers and treads of the stairs, not the outside or underneath portion of the stairway.

Design:

The bottom of the stairs will receive epoxy prime and paint. This application will also be used at all columns supporting the waterslide.

The top of the staircase will be applied as a double-broadcast quartz finish with FDA compliant chemical resistant polyaspartic as the grout coat and topcoat. The quartz broadcast will provide a textured surface to increase the coefficient of friction to make the floor more slip resistant.

The main color of the floor will be created by the quartz, which should be chosen by the client or client's representative. If different colors are desired for different areas, no change in price needs to be made, but advance notice of at least 7 days must be given to ensure materials can be ordered and delivered on time. For this system we will be using products from Kretus, and it will be installed with an MVR of at least 25 lbs./1,000 square- feet per hour.

Timeframe:

Grinding of all surfaces will take approx. 5 days. After grinding is complete, the topcoat of the staircase will receive epoxy coating with broadcast quarts. The application for this epoxy application only project will take 7 DAYS. Days 1 through 3 will be substrate preparation, stair treatment, and floor primer application. Days 4 and 5 will be quartz broadcast and touch up. Days 6 and 7 will be topcoat application and final quality control and cleanup. This timeframe must be completely dedicated to our work. If any other work is going on in the space which creates dust or moisture, or if other trades are allowed in the space within our application window, it may compromise the aesthetics and performance of the finished product as well as our ability to finish within the allotted time frame. After the final application of topcoat, we will be able to apply epoxy paint on all undersurfaces of the staircase. This will take 3 days with 1 day of drying time. Topcoats achieve full chemical resistance after 7 days. The temperature in the facility should be maintained at a minimum of 60 degrees Fahrenheit during our application process. Timing for this project as discussed during the job walk would be toward the end of August into the beginning of September. We can accommodate that timing as of the date of this proposal, but as soon as a clear schedule is established, please inform your JOC Construction contact to ensure that time is saved for your project.

Monthly Anticipated Adverse Weather Days											
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
7	4	4	4	6	3	4	2	3	3	2	5

By reason of example only, if in March there are two days when the snowfall exceeds the average snowfall for that day by 100%, those two days will have experienced an adverse weather condition. However, there will have been no unanticipated adverse weather condition in March, because there are four anticipated adverse weather days in March, which should be accounted for in the schedule. If, however, there are five days in which the snowfall exceeds the average snowfall by 100%, an unanticipated adverse weather condition will have occurred, and Contractor shall be entitled to request an extension of Job Order Completion Time.

- B. Any request for extension of the Job Order Completion Time shall be made in writing to the Project Manager not more than 7 days after commencement of the delay; otherwise it shall be waived. In strict accordance with C.R.S. § 24-91-103.5, the Town shall not amend the Contract Price or any Price associated with an individual Job Order to provide for additional compensation for any delays in performance which are not the result of acts or omissions of the Town or persons acting on behalf of the Town.

4.01 Labor Disputes:

Notwithstanding any other provision contained in this Contract, in the event of any picket or other form of labor dispute at the construction site, Contractor shall continue to perform the Work without interruption or delay. If Contractor ceases performance of the Work because of such picket or other form of labor dispute, the Town may terminate the services of Contractor after giving 48 hours' written notice of its intent to do so.

4.02 Default:

The Town may terminate this Contract upon 30 days' written notice to Contractor if Contractor defaults in the timely performance of any provision of the Contract Documents, or otherwise fails to perform the Work, or any part thereof, in accordance with the Contract Documents. Termination of the Contract by the Town shall not be the Town's exclusive remedy, and the Town may pursue such other remedies lawfully available to the Town including without limitation an action at law for damages against Contractor or any bonding agency issuing a bond hereunder, or an action in equity for injunctive relief.

Part 5. Warranties

5.01 Warranty of Fitness of Equipment and Materials:

Contractor represents and warrants to the Town that all equipment and materials used in the Work, and made a part of the Work, or placed permanently in the Work, shall be new unless otherwise specified in the Contract Documents. All equipment and materials used shall be of good quality, free of defects and in conformity with the Contract Documents. All equipment and materials not in conformity with the Contract Documents shall be considered defective.

5.02 General Warranty:

Contractor shall warrant and guarantee all material furnished and work performed by Contractor for a period of 2 years from the date of final acceptance of the Work by the Project Manager. Under this warranty, Contractor agrees to repair or replace, at its own expense and under the direction of the Project Manager, any portion of the Work which fails or is defective, unsound, unsatisfactory because of materials or workmanship, or which is not in conformity with the provisions of the Contract. Should Contractor fail to perform any such work within the warranty period after a request by the Town, the Town may withdraw from the Payment and Performance Bond any and all amounts necessary to complete the required work. The expiration of the warranty period shall in no way limit the Town's legal or equitable remedies, or the period in which such remedies may be asserted, for work negligently or defectively performed.

Part 6. Bonds, Insurance and Indemnification

6.01 Indemnification:

- A. Contractor agrees to indemnify and hold harmless the Town and its officers, insurers, volunteers, representatives, agents, employees, heirs and assigns from

and against all claims, liability, damages, losses, expenses and demands, including attorney fees, on account of injury, loss, or damage, including, without limitation, claims arising from bodily injury, personal injury, sickness, disease, death, property loss or damage, or any other loss of any kind whatsoever, which arise out of or are in any manner connected with this Contract or the Contract Documents, to the extent that such injury, loss or damage is attributable to the act, omission, error, professional error, mistake, negligence or other fault of Contractor, any subcontractor of Contractor, or any officer, employee, representative, or agent of Contractor or of any subcontractor of Contractor, or which arise out of any worker's compensation claim of any employee of Contractor or of any employee of any subcontractor of Contractor.

B. Contractor, to the fullest extent permitted by law, shall defend, investigate, handle, respond and provide defense for and defend against any such liability, claims, damages, losses, expenses or demands at the sole expense of Contractor, or at the option of the Town, Contractor agrees to pay the Town or reimburse the Town for defense costs incurred by the Town in connection with any such liability, claims, damages, losses, expenses or demands. Contractor, to the fullest extent permitted by law, shall defend and bear all other costs and expenses related thereto, including court costs and attorney fees, whether or not such liability, claims or demands alleged are groundless, false or fraudulent.

C. This indemnification provision is intended to comply with C.R.S. § 13-21-111.5(6) and shall be read as broadly as permitted to satisfy that intent. Contractor's liability under this provision shall be to the fullest extent of, but shall not exceed, that amount represented by the degree or percentage of negligence or fault attributable to Contractor, any subcontractor of Contractor, or any officer, employee, representative, or agent of Contractor or of any subcontractor of Contractor. If Contractor is providing architectural, engineering, surveying or other design services under this Agreement, the extent of Contractor's obligation to defend, indemnify and hold harmless the Town may be determined only after Contractor's liability or fault has been determined by adjudication, alternative dispute resolution or otherwise resolved by mutual agreement of the Parties, as provided by C.R.S. § 13-50.5-102(8)(c).

6.02 Notice of Claim:

If Contractor receives any claim arising from the performance of the Work, Contractor shall notify the Town in writing of the nature of the claim within 24 hours of receipt of the claim by Contractor. In this notice, Contractor shall provide evidence that Contractor has notified Contractor's insurer of the claim. Contractor shall keep the Town apprised of the disposition of the claim, and Contractor shall take all necessary action to resolve the claim and make restitution, if required, as quickly as possible.

6.03 Insurance:

A. Contractor agrees to procure and maintain, at its own cost, a policy or policies of insurance sufficient to insure against all liability, claims, demands, and

other obligations assumed by Contractor pursuant to this Contract. At a minimum, Contractor shall procure and maintain, and shall cause any subcontractor to procure and maintain, the insurance coverages listed below, with forms and insurers acceptable to the Town.

1. Worker's Compensation insurance as required by law.
2. Commercial General Liability insurance with minimum combined single limits of \$1,000,000 each occurrence and \$2,000,000 general aggregate. The policy shall be applicable to all premises and operations, and shall include coverage for bodily injury, broad form property damage, personal injury (including coverage for contractual and employee acts), blanket contractual, products, and completed operations. The policy shall contain a severability of interests provision, and shall include the Town and the Town's officers, employees, and contractors as additional insureds. No additional insured endorsement shall contain any exclusion for bodily injury or property damage arising from completed operations.

B. Such insurance shall be in addition to any other insurance requirements imposed by law. The coverages afforded under the policies shall not be canceled, terminated or materially changed without at least 30 days prior written notice to the Town. In the case of any claims-made policy, the necessary retroactive dates and extended reporting periods shall be procured to maintain such continuous coverage. Any insurance carried by the Town, its officers, its employees, or its contractors shall be excess and not contributory insurance to that provided by Contractor. Contractor shall be solely responsible for any deductible losses under any policy.

C. Contractor shall provide to the Town a certificate of insurance as evidence that the required policies are in full force and effect. The certificate shall identify this Contract.

6.04 Performance and Payment Bond:

Contractor shall furnish a Payment and Performance Bond in the full amount of the Job Order Price on all Job Orders valued \$50,000.00 and above, as security for the faithful performance and payment of all Contractor's obligations under the Contract Documents, including the warranty. This bond shall remain in effect at least until two years after the date of Final Completion.

Part 7. Payment

7.01 Progress Payments:

A. The Town shall make periodic progress payments to Contractor for all Job Orders that have a Job Order Completion Time of 45 days or less, or a Job Order Price of \$25,000 or less. A progress payment shall be made only after Contractor has submitted an application for a progress payment on a form approved by the Project Manager, and if requested by the Project Manager, Contractor shall submit

copies of invoices from subcontractors or supplies and partial waivers executed by each.

B. Progress payments shall be in an amount equal to 95% of the Work actually completed. Completed Work shall include materials and equipment not incorporated in the Work but delivered to the work site and suitably stored.

C. If Contractor fails to complete any required Work within the time period agreed between Contractor and the Project Manager, or within any time period set forth in the Contract Documents, as modified or extended, the Town is expressly authorized to withhold any progress payment for such Work until such Work is completed.

D. For all other Job Orders, the Owner may make partial, monthly payments based on the percentage of the work completed.

7.02 Final Payment:

Upon final acceptance of the Work, the Town shall make final payment to Contractor pursuant to C.R.S. § 38-26-107.

7.03 Liquidated Damages:

A. Because time is of the essence and delayed performance causes a compensable, yet difficult to precisely ascertain, damage to the Town and its residents, the liquidated damages established in this Section shall be enforced. Such damages are not a penalty. For each day Final Completion is delayed after the Final Completion date stated in each Job Order Proposal, as modified through approved Supplemental Job Order(s), Contractor shall be assessed the following amounts which constitute a reasonable estimate of the actual damages such delay would cause the Town:

Value of Job Order	Amount per day
\$0-\$50,000	\$350
\$50,000-\$100,000	\$380
\$100,000-\$250,000	\$440
\$250,000-\$500,000	\$520
\$500,000-\$1,000,000	\$640
\$1,000,000-\$2,000,000	\$820
\$2,000,000-\$4,000,000	\$1,080
\$4,000,000-\$8,000,000	\$1,450
\$8,000,000-\$12,000,000	\$1,820

\$12,000,000 or greater \$2,250

B. Allowing Contractor to continue and finish the Work or any part thereof after the Final Completion date shall not operate as a waiver on the part of the Town of any of its rights under the Contract Documents. Any liquidated damages assessed shall not relieve Contractor from liability for any damages or costs of other contractors caused by a failure of Contractor to complete the Work in the Job Order Completion Time. Liquidated damages may be deducted from any payment due Contractor or the retainage. If the liquidated damages exceed the amount owed to Contractor, Contractor shall reimburse the Town.

7.04 Oral Agreements Prohibited:

This Contract is expressly subject to the provisions of C.R.S. § 29-1-110(1), and Contractor acknowledges that neither the Town nor any employee or agent thereof is authorized to expend or contract for the expenditure of any monies in excess of those appropriated by the Erie Board of Trustees. The Town acknowledges that sufficient funds have been appropriated to pay the Contract Estimated Annual Value, but Contractor shall not rely upon the appropriation of any funds in addition to those already appropriated unless and until the same are lawfully appropriated by the Erie Board of Trustees.

7.05 Items Not Included in Bid:

No additional compensation shall be paid for any costs or services listed in the Contract Documents but not specifically accounted for by the Contractor in their bid Adjustment Factor(s).

7.06 Changes in Quantity:

- A. Except as provided in Section 7.08, Contractor shall not be entitled to compensation for any increased expense, loss of expected reimbursement or loss of anticipated profits, directly or indirectly caused by any changes in quantity.
- B. All other Changes in the Work shall be addressed by section 8 of the Job Order Contract Special Conditions: Changes in the Work.

7.07 Bid Price Adjustments:

- A. When a major item is increased to more than 125% or decreased below 75% of the original quantity stated in the original Job Order, the Price Proposal shall be modified by written Supplemental Job Order. Payment for major items shall be calculated by the terms of the Supplemental Job Order.
- B. A "major spike" is defined as a spike in a specific material cost of more than 25% above what the cost of that material was on the date the Construction Task Catalog® was issued. If a major spike occurs in a specific material cost, Contractor may submit a request for a price modification to a Unit Price or individual Job Order. In order to initiate such a request, Contractor shall:
 1. Identify the specific material that has experienced a major spike;

2. Identify Pre-priced Task(s) or Job Orders that require the material experiencing a major spike; and

3. Demonstrate that the spike exists by submitting a minimum of three quotes on material supplier letterhead to show that the current price meets the "major spike" definition above.

C. The Town, after review of a request, may elect to adjust the Unit Price or Job Order by considering it a NPP item. The adjustment will be for the difference between the material cost at the time the Construction Task Catalog® was issued times the quantity stated in the Job Order. The adjustment will not include any other markup, and the NPP adjustment factor will not apply.

D. The Town, at its option, may also determine that a drastic decrease in a material cost warrants the same NPP adjustment downward in the Unit Price or a Job Order.

7.08 Eliminated Items:

Should any items contained in the Job Order Price Proposal be found unnecessary for completion of the Work, the items shall be eliminated. The Job Order Price shall be modified through written Supplemental Job Order, and the amount of the Supplemental Job Order shall be the eliminated quantity multiplied by the unit price stated in the Construction Task Catalog®, minus any reasonable costs incurred by Contractor for the eliminated items. Reasonable costs shall be determined by the Project Manager based on information provided by Contractor and may include mobilization of eliminated materials and equipment mobilization costs, if the sole purpose of the equipment was to place the eliminated material. In no case shall the costs exceed the amount of the eliminated items.

7.09 Materials Stored But Not Incorporated:

Payments may be made to Contractor for materials stored on the work site but not incorporated into the Work as evidenced by invoices or cost analyses of material produced, if the material has been fabricated or processed and is ready for installation into the Work and conforms with the Contract Documents. Payments shall not exceed 85% of the price shown in the Job Order or 100% of the certified invoice cost of the stockpiled material, whichever is less. Payment for stockpiled materials shall not relieve Contractor of responsibility for loss or damage to the material. Payment for living plant materials or perishable materials shall not be made until the living or perishable material is made an integral part of the finished Work.

7.10 Cost Records:

Contractor shall make cost records available to the Town if the Town deems it necessary to determine the validity and amount of any item claimed.

Part 8. Miscellaneous

8.01 Publications:

Any and all publications relating to the Work and authored by Contractor or any of its subcontractors shall be submitted to the Town for its prior written approval of the content of the publication. When an acceptable Detailed Scope of Work has been prepared, the Town will issue a Request for Proposal that will require the Contractor to prepare a Job Order Proposal. The Detailed Scope of Work, unless modified by both the Contractor and the Town, will be the basis on which the Contractor will develop its Job Order Proposal and the Town will evaluate the same. The Contractor does not have the right to refuse to perform any task or any work in connection with a particular Project.
- 4.6. The Town may, at its option, include quantities in the Detailed Scope of Work if it helps to define the Detailed Scope of Work, if the actual quantities required are not known or cannot be determined at the time the Detailed Scope of Work is prepared, if the Contractor and the Town cannot agree on the quantities required, or for any other reason as determined by the Town. - 5.4. The Contractor will prepare Job Order Price Proposals in accordance with the following:
- 5.4.1. Pre-priced Task: The Contractor shall select the appropriate Pre-priced Tasks, enter the accurate quantities, and select the appropriate Adjustment Factor to be used for each such Pre-priced Task. The Contractor shall use the Adjustment Factors in effect on the date the Price Proposal is due, even though the Job Order may be issued after the Adjustment Factors have been updated.
- 5.4.2. Non Pre-priced Task: A task that is not set forth in the Construction Task Catalog®.
- 5.4.2.1. The final price submitted for Non Pre-priced Tasks shall be according to the following formula:

For Non Pre-priced Tasks Performed with Contractor's own forces:

A = The hourly rate for each trade classification not in the Construction Task Catalog® multiplied by the quantity;

B = The hourly, weekly, or monthly rate for each piece of equipment not in the Construction Task Catalog® multiplied by the quantity;

C = Lowest of three independent quotes for all materials.

Total for Non Pre-priced Tasks performed with Contractor's own forces = (A+B+C) x Non Pre-priced Task Adjustment Factor

For Non Pre-priced Tasks Performed by subcontractors:

If the Non Pre-priced Task will be subcontracted, the Contractor must submit three independent quotes for the work.

D = Lowest of three subcontractor quotes. If three quotes are not attainable in certain situations, Contractor may submit less than three with a letter of justification explaining the circumstances.

Total for Non Pre-priced Tasks performed by subcontractors = D x Non Pre-priced Task Adjustment Factor

If the work is to be subcontracted, the Contractor must submit three independent quotes from subcontractors. The Contractor shall not submit a quote or bid from any supplier or subcontractor that the Contractor is not prepared to use. The Town may require additional quotes and bids if the suppliers or subcontractors are not acceptable or if the prices are not reasonable. If three quotes or bids cannot be obtained, the Contractor will provide the reason in writing for the Town's approval. If approved, less than three quotes or bids will be allowed.
 - 5.4.3.3. After a Non Pre-priced Task has been approved by the Town, the Unit Price for such task will be established, following approval by the Town, and fixed as a permanent Non Pre-priced Task which will no longer require price justification.
 - 5.4.3.4. The Town's determination as to whether a task is a Pre-priced Task or a Non Pre-priced Task shall be final, binding and conclusive as to the Contractor.
- 5.5. Whenever, because of trade jurisdiction rules or small quantities, the cost of a minor task in the Job Order Price Proposal is less than the cost of the actual labor and material to perform such task, the Town may permit the Contractor to be paid for such task as a Non Pre-priced Task, or use Pre-priced labor tasks and material component pricing to cover the actual costs incurred. Provided, however, that there is no other work for that trade on the Project or other work for that trade cannot be scheduled at the same time and the final charge does not exceed \$1,000.
- 5.6. Contractor shall make the necessary arrangements for and obtain all filings and permits required for the Work, including the preparation of all drawings, sketches, calculations and other documents and information that may be

required therefor. If the Contractor is required to pay an application fee for filing a project, a fee to obtain a building permit, or any other permit fee to the City, State or some other governmental or regulatory agency, then the amount of such fee paid by the Contractor for which a receipt is obtained shall be treated as a Reimbursable Task to be paid without mark-up. The cost of expediting services or equipment use fees are not reimbursable.

- 5.7. The Contractor shall provide incidental engineering and architectural services required in connection with a particular Job Order including drawings and information required for filing.
- 5.8. The Contractor's Job Order Proposal shall be submitted by the date indicated on the Request for Proposal. All incomplete Job Order Proposals shall be rejected. On complex Job Orders, such as Job Orders requiring incidental engineering/architectural drawings and approvals and permits, allowance will be made to provide adequate time for preparation and submittal of the necessary documents.
- 5.9. In immediate response situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal may be required quickly and the due date will be so indicated on the Request for Proposal or, as described below, the Contractor may be directed to begin work immediately with the paperwork to follow.
- 5.10. For purposes of Using the Construction Task Catalog®, the project site is defined as the exterior perimeter of a building. For work not performed in a building, the project site is defined as the limits of the work area.
- 5.11. By submitting a Job Order Proposal to the Town, the Contractor agrees to accomplish the Detailed Scope of Work in accordance with the Request for Proposal at the price submitted. It is the Contractor's responsibility to include the necessary tasks and quantities in the Job Order Price Proposal and apply the appropriate Adjustment Factor(s) prior to delivering it to the Town.
- 5.12. If the Contractor requires clarifications or additional information regarding the Detailed Scope of work in order to prepare the Job Order Proposal, the request must be submitted so that the submittal of the Job Order Proposal is not delayed.
- 5.13. In the event the Contractor is required to work in a secured facility or location where labor, materials, and equipment must be inspected, the Contractor will be permitted to add labor hours to the Job Order Price Proposal to account for lost time as a result of such inspection.

6. Review of the Job Order Proposal and Issuance of the Job Order

- 6.1. The Town will evaluate the entire Job Order Price Proposal and compare these with the Town's estimate of the Detailed Scope of Work to determine

the reasonableness of approach, including the appropriateness of the tasks and quantities proposed. All incomplete Job Order Proposals will be rejected. The Town will review the Price Proposal to determine the accuracy of the Pre-priced Tasks, quantities, Adjustment Factors, and Non Pre-priced Tasks.

- 11.6.Averages shall be obtained by summing the 12-month indices and dividing by 12.
- 11.7.All calculations shall be carried to the fifth decimal place and rounded to the fourth decimal place. The following rules shall be used for rounding:
