RE: Sketch Plan, Westerly / Dearmin Tract

To Whom It May Concern:

Erie Land Company, LLC ("Applicant") is pleased to submit the enclosed Sketch Plan application for the property located at the southeast corner of Erie Parkway and Weld County Road 5. This project consists of a parcel with an area of approximately 266 acres that is located in the Town of Erie and is currently zoned NMU, LR and AG/OS.

The design of the Sketch Plan emphasizes a walkable village at the northeast corner with a direct connection through the open space to the Neighborhood Park at the promontory along the east property line. The vehicular circulation provides direct access through the community while leading to or terminating at the Neighborhood Park. Every resident is within a 5-minute walk to the Neighborhood Park, a Pocket Park and various connections to the pedestrian trail network.

The proposed plan depicts 925 homes on the approximately 266.6 acres, equating to a density of approximately 3.5 dwelling units per acre. In addition, the Sketch Plan depicts approximately 35,000 square feet of non-residential floor area in the Mixed-Use area.

<u>Residential Type</u>	<u>Units</u>
LW – Live Work	18
G2 – Alley Load TH	134
G1 – Alley Load Duplex	92
F – Alley Load TH	74
D1/D2 – Alley Load SF	157
C – Front Load SF1	215
A – Front Load SF2	202
P – Front Load SF3	33
Total	925

The provision for a Community Park is not required due to the area of the parcel not meeting the minimum acreage requirements. The requirements for Town Neighborhood Park and Town Open Space will be met and dedicated to the Town and maintained by the Town. The requirements for Pocket Parks and the remaining open space will be maintained by the HOA or Metro District. The project proposes two community amenity areas that will be maintained by the HOA or Metro District.

St. Vrain Valley School District provides service to this parcel. The District has identified this general area for a future school with the requirement of 25 acres, this is being provided on the adjacent Swink property directly adjacent to the approximately 10-acre Neighborhood Park.

The project is likely to be constructed in multiple phases. The first phases will be centered around the northernmost proposed community amenity and subsequent phases will be built to the south of that area.

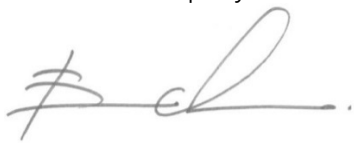

The property will be served by Town water and Sewer, and all services are in close proximity to the project. As part of the Annexation, adequacy of all necessary services have been confirmed including fire protection, water/sewer service, and utility providers.

A surface agreement has been executed with Anadarko and has been included with this Sketch Plan submittal.

Thank you for your consideration of the project and we look forward to reviewing the plans with the Town of Erie.

Sincerely,

Erie Land Company, LLC

Re: SK-001023-2018 – Dearmin Sketch Plan Application

Comments:

The Sketch Plan application process allows staff, Planning Commission and the Board of Trustees the opportunity to make comments regarding an application early in the development that the applicant should then address with the Preliminary Plat application. The Dearmin Sketch Plan application was reviewed at the December 6, 2018 Development Review Team meeting. Below are the Community Development Department comments, additional comments from Engineering and the Open Space and Trails Advisory Board (OSTAB) and Parks and Recreation Department are being forwarded to you as well. Some of the information below is related to the next steps of the zoning and subdivision processes.

Community Development Department comments:

1. GENERAL COMMENTS

- a. The sketch plan map identifies commercial area tracts at the access point to Erie Parkway. The narrative states “there will be approximately 35,000 square feet of non-residential floor area in the Mixed-Use area. Since the zoning boundaries cannot be seen on the provided map, it is unclear how the commercial tracts fit with the underlying Neighborhood Mixed Use Zoning (NMU). NMU centers are commercial center intended to serve the convenience needs of the surrounding neighborhood. The application does not include and information about the proposed uses or development approach within this area.

The current NMU Zoning boundaries have been added to the Sketch Plan. The areas being designated for the approximately 35,000 square feet of non-residential are anticipated to include NBHD service types of uses such as Medical, Dental, Daycare, Restaurants, etc. The final uses will be proposed with future site plans, and may include other uses allowed by zoning.

- b. The sketch plans shows alley loaded and street loaded residential development, a central greenway bounded by the commercial development at the south end and the neighborhood park on the south. This greenway is internal to the development as connectivity from the greenway to the corner of Erie Parkway and County Road 5 is not provided.

The revised Sketch Plan submittal now includes trail locations. The pedestrian circulation system includes both off street trails through the greenway, as well as detached sidewalks that provide a robust pedestrian circulation system for the community. The Village Center at the

north end of the greenway provides a destination and resting point in the community, without preventing pedestrian circulation.

- c. The design reflects the unique topography of the site and the views to the west that the elevation and hilliness of the site provide.

The design was certainly guided by the natural landform and views.

- d. A modified street grid network is proposed, including three access points to County Road 5, two access points to Erie Parkway, and 5 access points to the Swink property to the east.

Street connectivity is a foundational principle to Traditional Neighborhood design, and allows for a distribution of traffic to keep traffic volumes lower, we appreciate your recognition of this design principle.

- e. The plan depicts lots facing onto and accessing off of what are likely to be collector level streets. Since this is not allowed significant redesign of the layout will be necessary.

The design has been modified to minimize these conflicts, as part of a Traditional Neighborhood design it is important that to the greatest extent possible the fronts of homes face to these important roadways. As a result, we are proposing two design solutions, one is to utilize rear loaded homes so there will not be driveway conflicts where traffic volumes are greater than 1,000 trips per day. The second design solution being proposed is to include a planted median, the median will prohibit the ability to access a home from one side of the street which will minimize conflicts.

- f. The south edge of the development is the proposed open space and neighborhood park and residential development abuts this.
 - i. Please add the current zoning boundaries to the sketch plan map.
This information has been added as requested.
 - ii. A neighborhood park is to be bordered on two sides by public streets, the sketch plan shows a row of houses on the west side of the park between the park and the street which should be removed.
We are currently evaluating satisfying this requirement on the adjacent Swink property.
- g. Please show the required oil and gas setbacks on the sketch plan.

This information has been added as requested.

- h. Please show the width dimensions of the Open Space as the minimum allowable width is 300 feet. The southernmost lots back to this narrower section of open space and these lots will be exposed to the existing and future oil and gas operations across the ditch. This comment was provided in the previous sketch plan "additional buffer between any proposed lots and the existing and future industrial activities located south and east of the Community Ditch or a design where lots side to the open space rather than back to it should be considered so that the open space can operate as buffer for the residential development and transition zone to the industrial activities across the ditch". It appears this current sketch plan moves more lots further south rather than incorporating and reflecting the previous direction.

Dimensions are shown. It is our understanding the existing well is to be plugged and abandoned. Regardless, the UDC requires that new homes be setback from existing wells 350' feet. All homes in this plan are located at least 450' feet from the existing well thus providing additional buffer. Future wells that might be located on the 35 acres south of the FRICO irrigation ditch that the Southern Land Company deeded to Anadarko in return for relinquishment of all surface rights within the community (thus eliminating future drilling pads in the community) will be required to go through the COGCC permit process and will be required to meet all state and local setbacks from existing and future structures and property lines. The state property line setback is 150'. It appears that the closest a new well could be drilled to the proposed homes is 520' thus providing additional buffer.

2. ALTA

- a. Any overhead electrical lines near Erie Parkway and County Road 5 will need to be shown as being moved underground in a preliminary plat application.
Acknowledged.
- b. Ten monitoring wells are shown on the survey, a discussion of these wells is not included in the Phase 1 Environmental Site Assessment. Please provide additional information regarding these wells (purpose, ownership, future, etc.) as part of a preliminary plat application.
Matrix has investigated the wells through Colorado State and is unable to find the exact ownership and purpose. Our environmental specialists reviewed the wells in the field and they are monitoring wells and will be abandoned through the Department of Natural Resources process when appropriate in the process.
- c. A preliminary plat application should include a proposal and timeline for the removal of all existing structures and facilities.
Acknowledged, at this time we believe that the existing structures will be removed with Phase One of Filing One.

3. The property is currently zoned NMU, LR and AG-OS. Please show the current zone district boundaries clearly on the sketch plan map. As the project progresses through the future subdivision processes additional adjustment in zoning would be need to be approved by the Board of Trustees.

Acknowledged.

4. SUBDIVISION STANDARDS

- a. A phasing plan shall be provided with the preliminary plat submittal.
- b. Natural and scenic resource protection is included in the subdivision standards. The ridge along the south edge of the development has been identified by the Town as being a scenic resource, the location of residential development along the southern edge will be evaluated at the time of preliminary plat in regards to how it impacts the resource.
- c. Please review the comments from Engineering and respond to these comments. Revisions meeting Town engineering standards shall be included in a preliminary plat submittal.
- d. A preliminary plat application should show all utility easements.
- e. A more detailed review of the Subdivision Standards would occur at Preliminary Plat when the required development reports are provided.

- f. Sketch Plan review does not include referral to the school district, this would occur at preliminary plat. Staff understands that the District does want a school site in this area and that the school site is not proposed to be located within the subject area.

Acknowledged.

5. DEVELOPMENT AND DESIGN STANDARDS

a. 10.6.2 Natural and Scenic Resource Protection:

- i. A preliminary plat submittal will need to include a Threatened and Endangered Species, Habitat, and Wetlands report, a Cultural, Archaeological, and Historical Resource Report and Protection Plan and a Native Tree and Vegetation Survey and Protection Plan.

Acknowledged.

- ii. A grading plan was not provided; the lots were laid out over the existing topography but appear to generally utilize and follow the existing topography.
Thank you for acknowledging that the lots are laid out following the existing topography.

- iii. Significant features on this site include the hilly topography and a ridge which includes the Town's highest natural point. The design of the development incorporates the high point of the site into the neighborhood park.

We understand that this is important to the Town and are excited to work with the Town on the design of the Neighborhood Park in this location.

- iv. There is a 75 foot setback, measured from the centerline of the ditch, which should be shown on the preliminary plat.

Acknowledged.

- v. As required for a community gateway a 30' buffer is shown along Erie Parkway and as required for an Arterial road a 30' buffer is shown along County Road 5. The Preliminary Landscape Plans required as part of the Preliminary Plat submittal should show all how the Community Gateway requirements are being met.

Acknowledged.

b. 10.6.3 Parks, Open Space, and Trails:

- i. 946 lots are included in the sketch plan, please provide the park dedication requirements in a table on the sketch plan.

This information has been added as requested.

- ii. Two pocket parks are shown on the plan, the southern park location is on the edge of the residential development, it should be relocated so that it is more internal to the neighborhood.

We have added the service radius circles to the sketch plan, while the southern park location is towards the edge of the residential area there is an additional

park area to the north and the community is very well served by park and open space areas.

- iii. Please review the comments from OSTAB and the Parks and Recreation Department and address these comments with revisions to be included in a preliminary plat submittal.

We have provided responses to the OSTAB and Park and Recreation Department comments with this revised submittal.

c. 10.6.4 Landscape, Screening, and Fencing

- i. Preliminary landscape plans prepared in accordance with the Town of Erie Standards and Specifications for Design and Construction of Public Improvements, UDC, and Town of Erie Parks and Trails Master Plan are required to be submitted with a preliminary plat. Please include any plans for neighborhood fencing and an irrigation plan in this plan set.

Acknowledged.

d. 10.6.5 Transportation and Access

- i. A Traffic Impact Study is required at the time of preliminary plat, this study should include the proposed development on the adjacent Swink property. The street designations are unknown without a traffic study and thus redesign will be necessary in response to the additional information.

- ii. Streets and Vehicular Circulation

- 1) All comments from Public Works will need to be addressed and these revisions included in a preliminary plat submittal.

Acknowledged.

- 2) Please clarify the one-way street pairs; the streets on either side of central greenway seem like they should be a one-way pair but they are not labeled as such.

The streets are one-way pairs and we have added a label.

- 3) Pedestrian Facilities –

- 1. Trails and paths proposed on private HOA/Metro District property (tracts) require a grant of public access easement across that tract.

Acknowledged.

- 2. OSTAB provided comments related to pedestrian connectivity, please respond to these comments and provide revisions in the preliminary plat submittal.

We have provided responses with this revised submittal.

e. 10.6.6 Parking requirements/Loading –

- i. Final plans and details of these elements are typically evaluated during a site plan review phase after a lot has been created by recordation of a final plat.

Acknowledged.

f. 10.6.7 and 10.6.8 Design Standards

- i. Housing Diversity

The Town of Erie has a housing diversity requirement that is based on the acres of residentially zoned property to ensure that as the Town grows, a variation in housing choices are available to potential consumers looking for housing in Erie. Below is a listing of what is considered a housing type and what is considered a housing type variation:

Housing Type	Housing Type Variation
Duplex	Front Loaded
	Alley Loaded
Stacked Tri-plex / Quad-plex	Three Dwelling Units per Building
	Four Dwelling Units per Building
Manor Home	Variation in Building Length 30% or More
	Variation in Building Footprint 30% or More
Townhouse (Single-Family Attached)	Front Loaded
	Alley Loaded
Apartment (Multi-family)	Variation in Building Length 30% or More
	Variation in Building Footprint 30% or More
Live-Work Units	Front Loaded
	Alley Loaded
Single Family Detached	Front Loaded
	Alley Loaded
	Lot Size Under 5,000 Square Feet
	Lot Size 5,000 – 9,999 Square Feet
	Lot Size 10,000 – 39,999 Square Feet
	Lot Size 40,000 Square Feet or More

- ii. Approximately 217 acres is zoned LR which would require four housing types or three housing types and one housing type variation or 2 housing types and 2 housing type variations. The narrative indicates that there will be Live Work, Townhouse, Duplexes, and Single Family housing types or four housing types. Single Family will have both front loaded and alley loaded so the proposal also includes a variation.

That is correct, the neighborhood has been planned to include a wide variety of home types.

g. 10.6.14 Oil and Gas:

- i. Copies of all surface use agreements that encumber the property (including those on adjacent properties where setbacks impact the subject property) are required to be submitted at the time of preliminary plat application.

This will be submitted with the preliminary plat.

- ii. Please show all oil and gas setbacks on the sketch plan.
[This information has been added to the Sketch Plan.](#)

6. Sketch Plan Map:

- a. The vicinity map utilized in subsequent reviews for this development needs to be updated to reflect current conditions and recent platting. Aerial photography is not appropriate for a vicinity map as these images do not reproduce.

[The Vicinity Map has been updated.](#)

Mike McGill, Town Arborist

Parks & Open Space Division staff has reviewed the revised subject plans and offers the following comments:

General Comments:

- Spaces used to accommodate local trails should be no less than three (3) times the width of the trail and shall accommodate development of Americans with Disabilities Act (ADA) compliant trails. Several local trails are currently located in tight corridors or against the edge of the property.
[Acknowledged, we will continue to refine this as part of the Preliminary Plat.](#)
- Local trail entry points are to be shown as HOA/District maintained as they do not meet minimum open space width requirements.
[Acknowledged.](#)
- Staff would like to see trail connectivity provided from the Town's open space running diagonally through the property. Specifically, from the southeast corner of the property to the intersection of Erie Parkway and County Road 5.
[Acknowledged, we will continue to refine this as part of the Preliminary Plat.](#)

Sheet 2 of 15

- Staff continue to have concerns with regard to the proposed Town's open space. While some improvements have been made, it appears the bare minimum in relation to width is being provided. In addition, encroachment from the lots located on the north edge of the open space has increased.
[Acknowledged, in some areas lots have moved modestly north, and in other areas they have moved modestly south.](#)

Comments for Sketch Plan:

1. A Preliminary Utility Study and Utility Plan were not included in the submittal. Therefore, Public Works cannot provide any comments on the feasibility of the utilities required for this development.
Acknowledged, a Preliminary Utility Study and Plan are not required as part of the Sketch Plan process but will be included with the Preliminary Plat.
2. Curve radii were not provided for the roadways, but as a reminder, the minimum curve radius is 175 feet for local roads, 300 feet for residential collectors, and 475 feet for collectors.
Acknowledged, they will be labeled in the Preliminary Plat.
3. The Preliminary Traffic Study included showed a total of 5 connections greater than 1,000 vehicles a day which would necessitate collector roads. For a development this size with a centrally located school and park site, it would be expected that at a minimum there would be a need for one east/west collector and one north/south collector. There are no collectors being shown other than at the arterial intersections.
Acknowledged, we have purposefully designed a robust local street network within the neighborhood to distribute traffic broadly to ensure more local, neighborhood-friendly streets. This is a foundational principle to Traditional Neighborhood design which relies on a network of local roads compared to a suburban model that relies on a larger collector street(s) distributing traffic to their destination.
4. In the traffic study, several stop controlled intersections are shown with an operating level of service of F. This indicates they need to be analyzed for signalization.
Matrix has analyzed the site specific stop controlled intersections and none of the LOS F intersections will meet signal warrants based on the volumes anticipated in the traffic study (2040). We have revised Intersection 2 (Road A and Erie Parkway) to be a ¾ movement opening day as we were finding that the through volumes on Erie Parkway were too high in a non-signalized configuration and that the intersection was too close to WCR 5 for a well-functioning signal.
5. This development will be required to reimburse the St. Vrain Valley School District for its proportional share of the sanitary sewer outfall.
Acknowledged.
6. This development will also be required to reimburse the Colliers Hill/Erie Highlands Metro Districts for portions of the Erie Parkway and WCR 5 intersection, drainage, and traffic signal improvements.
Acknowledged.

7. Roadway improvements to Erie Parkway, WCR 5 (including the Norton outparcel), and WCR 6 will be required for this development.
[We anticipate that roadway improvements will be included in the Development Agreement.](#)
8. Alley widths are not being shown. As a reminder, if these alleys will have Town utility lines in them, the minimum width will be 30 feet.
[Acknowledged.](#)
9. The Town will very likely have re-use water available or nearby that this project may use for irrigation use. Our rate structure for re-use water is two tiered where rates for projects that have an on-site irrigation ponds are charged half of the normal re-use water rate. It is strongly recommended that with a project this size that not only is reuse water used for irrigation, but that a pond also be provided.
[We anticipate providing an irrigation pond in the same general location as the detention pond in the northwest corner of the property.](#)
10. All comments on the sketch plan are general in nature. Additional and more in depth comments on the traffic, road layout, utilities, and drainage will be provide at Preliminary Plat.
[Acknowledged.](#)

Town of Erie Open Space and Trails Advisory Board

From: Town of Erie Open Space and Trails Advisory Board
(OSTAB) To: Hannah Hippely, Senior Planner,
Community Development Date: December 4, 2018

Subject: Dearmin Referral - Sketch Plan (dated October 19, 2018)

Location: SE corner of Erie Parkway (WCR 8) and WCR 5, south of Erie High School.

OSTAB has reviewed the referral materials, compared them to Town planning documents, and has prepared the following comments, questions, and recommendations for the Town's consideration in evaluating this application.

Open Space and the Natural Areas Inventory (NAI):

Discussion:

There are no NAI sites on this property.

We concur that the southern portion of this property is the best location for dedicated open space. The southwestern corner is opposite the existing Town Sunset Open Space; in the future, it will contain a Spine Trail. The eastern border of the dedicated open space is the Community Ditch. Section 10.6.2 (Natural and Scenic Resource Protection) of the Unified Development Code (UDC) states that the purpose of that section is to protect natural and man-made features that contribute significantly to the Town's scenic quality and small town character, including, amongst many, irrigation ditches. We strongly believe that such ditches should be included in dedicated open space wherever possible.

The submitted narrative indicates there will be 943 homes. Using the formula in the UDC, we calculate that the required dedicated open space is 45.69 acres. The Tract Summary Chart on page 1 indicates that Tract PP (46.48 acres) will be the dedicated open space. However, we believe that portions of that tract do NOT meet the requirements for dedicated open space as defined in the UDC. One restriction is that the minimum width must be 300 feet. The following locations are not that wide:

1. The eastern portion between WCR 6 and the Ditch (Sketch Plan, sheets

- 14 and 15));
2. Portions south of Road N and west of Road R (Sketch Plan, sheet 12);
3. A portion east of the lots on Road R and the Ditch (Sketch Plan, sheets 12 and 13).

Another requirement is that dedicated open space not included oil and gas well sites and required buffers. There is an existing O&G facility immediately east of the Ditch opposite Road R (Sketch Plan, sheet 13). We believe that the required buffer for that well site is 150', which would be close to the lots on Road R. Most of that buffer is in Tract PP. We therefore conclude that a material portion of Tract PP does NOT meet the requirements for dedicated open space as defined in the UDC.

We are also concerned about the impact of the lots east of Road R and south of Road P on the dedicated open space, Tract PP. The land slopes southeastward from those lots, within the dedicated open space and nearby the Community Ditch. Pesticides from landscaping activities, and pet waste, will runoff from those lots into the dedicated open space. Degradation of the open space will be inevitable.

Recommendations:

1. Redesign the dedicated open space so that it meets the minimum 300' foot width in the UDC;
2. Redesign the lot configurations east of Road R to substantially reduce the impact of runoff from those lots into the adjacent dedicated open space.

Thank you for these recommendations. The Preliminary Plat will create a tract that can be dedicated to the Town as Open Space, the tract will not include the narrow trail connector areas, but will include the area encompassing the Spine Trail.

Stormwater runoff that is generated from lots that back to Open Space will be minimized by placing a high point near the mid-point of the lot and draining as much runoff as practical towards the adjacent roadway in a swale between lots.

Trails:

Spine Trail

Discussion:

The Parks, Recreation, Open Space, and Trails (PROST) Master Plan contains a map (Figure 15, page 120) of proposed Spine Trails. It contains a Spine Trail on southern portion of this property i.e. within the proposed dedicated open space. The western portion starts at the intersection of WCR 5 and WCR 6, goes slightly northeastward, then follows that Ditch on the northern side, exiting this property to the east slightly

north of the Ditch.

Sheet 2 has a trail that roughly follows that configuration. We believe the safest location for the western terminus should be at the intersection of WCR 5 and WCR 6. That trail must match the Spine Trail requirement in the PROST Master Plan (Figure 16, page 124): 8' concrete, 4' crusher fines, and a 2' minimum shoulder on each side that is clear of obstructions.

There are 3 proposed connectors to the Spine Trail:

1. Road N (Sheet 12);
2. Road P (Sheet 11);
3. The neighborhood park (Sheets 11 and 13).

The connector to Road P goes through a narrow corridor between residential lots that appears to be 10-15 feet wide. The connector to Road N goes through a corridor between residential lots that appears to be 35-50 feet wide. We recommend that the corridor to Road P be widened so it's comparable to the connector to Road N.

There is a map on Sheet 2 that shows slopes greater than 8 feet. A portion of the connector to the neighborhood park may be located on those slopes. That entire connector must be ADA compliant.

Recommendations:

1. Move the western terminus of the Spine Trail to the intersection of WCR 5 and WCR 6;
2. Widen the corridor to Road P so it's comparable to the connector to Road N;
3. Ensure that the connector to the neighborhood park is ADA compliant.

[Thank you for these recommendations. The Spine Trail has been moved to terminate at the intersection of WCR5 & WCR6. The local trail corridor connections will be studied further with the Preliminary Plat design, and we will also review the connector to the Neighborhood Park to ensure that we can accommodate a 5% trail.](#)

Neighborhood Trails

Discussion:

We believe that a robust network of neighborhood trails is necessary for the safety of children and for the well-being of all residents. These trails should provide safe, quiet access to schools, parks, the spine trail, and to neighbors who are not nearby. This subdivision is likely to be very attractive to families with children, since both the Erie High School and the new Soaring Heights PK-8 school are nearby, just across Erie Parkway. There are many small alley-loaded lots that will likely contain housing in a price range attractive to younger families.

The second paragraph of the Narrative states:

“The design of the Sketch Plan emphasizes a walkable village at the northeast corner with a direct connection through the open space to the Neighborhood Park at the promontory along the east property line. The vehicular circulation provides direct access through the community while leading to or terminating at the Neighborhood Park. Every resident is within a 5-minute walk to the Neighborhood Park, a Pocket Park and various connections to the pedestrian trail network.”

We are not able to find ANY trails on any page of the Sketch Plan, except for the Spine Trail and associate connectors discussed above. There undoubtedly will be trails in the neighborhood park and the pocket parks. The design of trails within all parks is outside the responsibilities of this Board. However, we are responsible for recommending all other neighborhood trails.

In our opinion, the most important location for a neighborhood trail is through a line of open space tracts that are located between the neighborhood park in the SE quadrant and the pocket park in the NW quadrant. Those Tracts are F (2.3 acres), L (1.58 acres), and P (3.02) acres. The widest portion of those tracts are at the SE and NW terminuses; we roughly calculate that the width at those locations is 250-300 ft. However, all of Tract L and the northern half of Tract P are roughly 100 ft wide. In order to create a more natural environment within all 3 tracts, we recommend:

1. All tracts be a minimum of 250 ft wide;
2. An 8 ft wide concrete trail be constructed in the center of those 3 tracts.

Moreover, the above proposed neighborhood trail does not provide safe access to the two schools immediately north of Erie Parkway. From the northern pocket park (Tract PPP), options to reach the intersection of WCR 5 and Erie Parkway, where there is a traffic signal, would be either narrow sidewalks in the residential area to the west, or equally narrow sidewalks through the commercial area to the north. The intersection of Erie Parkway and WCR 5 is heavily traveled, both by trucks going to/from the regional landfill on WVR 5 to the south, by Erie residents accessing I25, and by residents of towns east of I25 trying to by-pass the incredibly traffic jams on CO 7 to the south.

We spent considerable time discussing how to provide children safe access to those 2 schools. We also confirmed that the Town has a long range plan to construct an underpass of Erie Parkway between WCR 5 and WCR 7. Our solution is complex:

1. Extend Roads U and V from Road C to Erie Parkway. Road U (the western road) would be one way from Erie Parkway to Road C. Road V (the eastern road) would be one way from Road C to Erie Parkway;
2. Replace commercial Tract V, which is located between Roads U and V, with an open space tract, that is comparable in width to Tracts F, L and P discussed above. This open space tract should extend to Erie parkway, between the

- redesigned Roads U and V. Include an 8 foot concrete trail within this new open space tract;
3. Construct the Erie Parkway underpass directly north of this new open space tract and trail.

The primary purpose of the above described redesign is to provide safe access to the PK-8 and high schools. An additional advantage is the residential lots on the west side of Road U and the east side of Road V would face an open space tract, not a commercial tract.

The second most important neighbor trial should be along the eastern boundary of this application area, between Erie Parkway and the neighborhood park. There are already open space tracts (AA, BB, CCC, GG, HH) here. We estimate that Tract BB is 60 ft wide, the others are 40 ft wide. We believe that the area east of this application (Swink) is likely to be proposed for additional development in the near future. We are recommending that all these eastern open space tracts be at least 50 ft wide in this application, and contain an 8 ft concrete trail. We anticipate recommending matching 50 ft wide open space tract(s) on the western edge of Swink.

There are multiple narrow open space tracts connecting WCR 5 on the west to nearby residential streets. All those tracts should contain sidewalks.

Erie Parkway and WCR 5 are both arterial streets. Thus, the sidewalks on those roads should be 8' wide, and meandering within a landscaped buffer. Sheets 14 and 15 appear to indicate that there will not be a sidewalk along WCR 6. We believe that Town code requires a sidewalk there.

Recommendations:

1. Widen open space tracts F, L, and P to a minimum of 250 ft. See discussion above for our reasoning;
2. Construct an 8 ft wide concrete trail more or less in the center of open space tracts F, L, and P. See discussion above for our reasoning;
3. Provide safe access between the neighborhood park and the 2 schools immediately north on WCR 5 by the recommendations detailed above:
 - a. Extend Roads U and V from Road C to Erie Parkway. Road U (the western road) would be one way from Erie Parkway and Road C. Road V (the eastern road) would be one way from Road C to Erie Parkway;
 - b. Replace commercial Tract V, which is located between Roads U and V, with an open space tract, that is comparable in width to Tracts F, L and P discussed above. This open space tract should extend to Erie parkway, between the redesigned Roads U and V;
 - c. Include an 8 foot concrete trail within this new open space tract;
 - d. Construct the Erie Parkway underpass due north of this new open space tract and trail;
4. Construct sidewalks in all narrow open space tracts that connect WCR 5 on the

- west to nearby residential streets;
5. Construct sidewalks adjacent to Erie Parkway and WCR 5 that are 8' wide, meandering and within a landscape buffer;
 6. Construct an 8 ft concrete sidewalk along WCR 6.

Thank you for these recommendations. The applicant has based the design of the master plan around the priority of providing generous pedestrian connectivity through, to and around the development. Multiple path widths, contexts and locations will ensure that not only can pedestrians and cyclists reach their destinations, but have also been rewarded with a rich experience while doing so. The Sketch Plan has been updated to include trail or sidewalk connections through Open Space, Pocket Parks and Pedestrian Mews. The applicant believes that the Open Space tracts F, L and P are of generous and adequate width to provide a beautiful and accessible connection through the community to the Neighborhood Park, increasing this width would bifurcate the community. A multi-use trail will be constructed within this Greenway, and the Sketch Plan has been updated to depict the conceptual location.

Commercial Tract V lies within a portion of the property that is intended for mixed-use as shown in the Comprehensive Plan. We understand this is a priority for the Town and have drawn the commercial uses accordingly. We believe we have provided for both the commercial and circulation priorities with this plan. The required open space area adjacent to both County Road 5 and Erie Parkway have been provided with this Sketch Plan, which will allow for the construction of the Erie Parkway underpass at whatever location the Town decides that they would like to construct the underpass, we do agree that this will provide safe pedestrian circulation to the High School. Finally, we believe that the Spine Trail that runs approximately parallel to WCR 6 provides good pedestrian access for the community, and continuing a trail further east along WCR 6 provides pedestrian access to an area that has a significant amount of truck traffic.

Please pass this referral letter to the Applicant, and appropriate town departments, boards, and commissions. Thank you for your attention to these matters. OSTAB is available to discuss any of the above in more detail as needed.

Sincerely,

Open Space and Trails Advisory Board

5. THE PROPERTY IS LOCATED WITHIN ZONE X (AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOODPLAIN). OBTAINED FROM THE FLOOD INSURANCE RATE MAP (FIRM), MAP NUMBER 08013C0583J, EFFECTIVE DECEMBER 18, 2012.
6. THE 50 FOOT WIDE STRIP ENCOMPASSING THE PHYSICAL COMMUNITY DITCH WAS DESCRIBED BOOK 63 PAGE 464 AS A CONTINUOUS DITCH MEANDERING THROUGH SECTION 21 WITH NO SPECIFIC LOCATION PROVIDED. IT IS APPARENT THAT AN UNRECORDED SURVEY OF THE WEST ONE-HALF OF SECTION 21 PERFORMED BY CVL CONSULTANTS (PLS 35593) AND LATER RETRACED ON MAP REFERENCE 4 SURVEYED THE APPROXIMATE PHYSICAL CENTERLINE OF THE DITCH AND DOCUMENTED THE 50 FOOT WIDE STRIP SURVEY BY CITING SPECIFIC BEARINGS AND DISTANCES AND SETTING SURVEY MONUMENTS IN THE FIELD. SUBSEQUENT TO THE UNRECORDED SURVEY AND APPARENTLY WITHOUT KNOWLEDGE OF THE PRIOR SURVEY'S EXISTENCE, THE AUTHORS OF MAP REFERENCE 3 AND LATER 5 PERFORMED A SIMILAR MONUMENTED PROCEDURE IN THE EAST ONE-HALF OF SECTION 21. THIS INTERPRETATION OF THE DITCH IN THE EAST ONE-HALF OF SECTION 21 DIFFERS FROM THE ONE PERFORMED IN THE WEST ONE-HALF OF SECTION 21 BY APPROXIMATELY 6 FEET PRODUCING A 5.89 FOOT JOG AT THE NORTH-SOUTH CENTER SECTION LINE. THE SURVEY PERFORMED HERON DOCUMENTS AND ACCEPTS THIS JOG AT THE NORTH-SOUTH CENTERLINE OF SECTION 21.
7. THE SUBJECT PROPERTY DESCRIPTION YIELDS A CALCULATED AREA OF 11,615,748 SQ. FT. (266.66089 ACRES) MORE OR LESS.

ALTA COMMITMENT FOR TITLE INSURANCE

ISSUED BY
STEWART TITLE GUARANTY COMPANY

STEWART TITLE GUARANTY COMPANY, a Texas Corporation ("Company"), for a valuable consideration, commits to issue its policy or policies of title insurance, as identified in Schedule A, in favor of the Proposed Insured named in Schedule A, as owner or mortgagee of the estate or interest in the land described or referred to in Schedule A, upon payment of the premiums and charges and compliance with the Requirements; all subject to the provisions of Schedules A and B and to the Conditions of this Commitment.

This Commitment shall be effective only when the identity of the Proposed Insured and the amount of the policy or policies committed for have been inserted in Schedule A by the Company.

All liability and obligation under this Commitment shall cease and terminate six months after the Effective Date or when the policy or policies committed for shall issue, whichever first occurs, provided that the failure to issue the policy or policies is not the fault of the Company.

The Company will provide a sample of the policy form upon request.

This Commitment shall not be valid or binding until countersigned by a validating officer or authorized signatory.

IN WITNESS WHEREOF, Stewart Title Guaranty Company has caused its corporate name and seal to be affixed by its duly authorized officers on the date shown in Schedule A.

CONDITIONS

1. The term mortgage, when used herein, shall include deed of trust, trust deed, or other security instrument.
2. If the proposed Insured has or acquired actual knowledge of any defect, lien, encumbrance, adverse claim or other matter affecting the estate or interest or mortgage thereon covered by this Commitment other than those shown in Schedule B hereof, and shall fail to disclose such knowledge to the Company in writing, the Company shall be relieved from liability for any loss or damage resulting from any act of reliance hereon to the extent the Company is prejudiced by failure to so disclose such knowledge. If the proposed Insured shall disclose such knowledge to the Company, or if the Company otherwise acquires actual knowledge of any such defect, lien, encumbrance, adverse claim or other matter, the Company at its option may amend Schedule B of this Commitment accordingly, but such amendment shall not relieve the Company from liability previously incurred pursuant to paragraph 3 of these Conditions.
3. Liability of the Company under this Commitment shall be only to the named proposed Insured and such parties included under the definition of Insured in the form of policy or policies committed for and only for actual loss incurred in reliance hereon in undertaking in good faith (a) to comply with the requirements hereof, or (b) to eliminate exceptions shown in Schedule B, or (c) to acquire or create the estate or interest or mortgage thereon covered by this Commitment. In no event shall such liability exceed the amount stated in Schedule A for the policy or policies committed for and such liability is subject to the insuring provisions and Conditions and the Exclusions from Coverage of the form of policy or policies committed for in favor of the proposed Insured which are hereby incorporated by reference and are made a part of this Commitment except as expressly modified herein.
4. This Commitment is a contract to issue one or more title insurance policies and is not an abstract of title or a report of the condition of title. Any action or actions or rights of action that the proposed Insured may have or may bring against the Company arising out of the status of the title to the estate or interest or the status of the mortgage thereon covered by this Commitment must be based on and are subject to the provisions of this Commitment.
5. *The policy to be issued contains an arbitration clause. All arbitrable matters when the Amount of Insurance is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. You may review a copy of the arbitration rules at < <http://www.alta.org/>>.*

All notices required to be given the Company and any statement in writing required to be furnished the Company shall be addressed to it at P.O. Box 2029, Houston, Texas 77252.

COMMITMENT FOR TITLE INSURANCE SCHEDULE A

COMMITMENT FOR TITLE INSURANCE
SCHEDULE B
PART II

File No.: 18000310614- Amendment No. 2

Schedule B of the policy or policies to be issued will contain exceptions to the following matters unless the same are disposed of to the satisfaction of the Company:

1. Rights or claims of parties in possession, not shown by the public records.
2. Easements, or claims of easements, not shown by the public records.
3. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the title that would be disclosed by an accurate and complete land survey of the Land and not shown by the public records.

MINERAL DISCLOSURE

To comply with the provisions of C.R.S. 10-11-123, the Company makes the following disclosure:

- a. That there is recorded evidence that a mineral estate has been severed, leased or otherwise conveyed from the surface estate and that there is a substantial likelihood that a third party holds some or all interest in oil, gas, other minerals, or geothermal energy in the property; and
- b. That such mineral estate may include the right to enter and use the property without the surface owner's permission.

NOTE: THIS DISCLOSURE APPLIED ONLY IF SCHEDULE B, SECTION 2 OF THE TITLE COMMITMENT HEREIN INCLUDES AN EXCEPTION FOR SEVERED MINERALS.

RELINQUISHMENT

THIS RELINQUISHMENT (this "Relinquishment") is effective this 3rd day of July, 2018, by and among KERR-MCGEE OIL & GAS ONSHORE LP, KERR-MCGEE GATHERING LLC, ANADARKO LAND CORP. (formerly known as Union Pacific Land Resources Corporation), and ANADARKO E&P ONSHORE LLC, with an address of 1099 18th Street, Suite 1800, Denver, CO 80202 (hereinafter, together with their respective successors and assigns, collectively, "Anadarko Land") and ERIE LAND COMPANY, LLC, a Delaware limited liability company (hereinafter "Grantee").

WITNESSETH:**RECITALS**

1. The lands which are the subject of this Relinquishment are the lands that are described on attached Exhibit A and are hereinafter referred to as the "Subject Lands."
2. By deed dated July 18, 1911 and recorded in the Office of the Clerk and Recorder of Weld County (the "Official Records") in Book 320 at Page 61, Union Pacific Railroad Company ("Railway") conveyed to Joseph M Kirby and John J Kirby certain real estate in Weld County, Colorado, a portion of which are the Subject Lands. Said deed was made subject to certain reservations by the grantor (the "Deed").
3. By quitclaim deed dated September 28, 1995 recorded on November 23, 1998 in the Office of the Clerk and Recorder of Weld County at Reception No. 2661201, Union Pacific Railroad Company, formerly known as Union Pacific Railway Company, quitclaimed to Union Pacific Land Resources Corporation, all of its right, title, and interest in and to certain real estate in Weld County, Colorado, a portion of which was the Subject Lands.
4. This Relinquishment relates to surface entry only for all minerals, including coal, hard rock minerals as may be described in the instruments above, and also any and all oil, gas, energy resources, geothermal resources and all associated rights and hydrocarbons (all of the foregoing, collectively, "Minerals"), that Anadarko Land owns in the Subject Lands.

RELINQUISHMENT AND QUITCLAIM

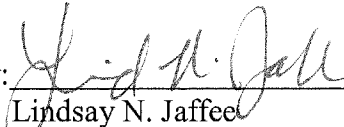

NOW THEREFORE, Anadarko Land, for and in consideration of the sum of TEN DOLLARS (\$10.00) and other good and valuable consideration to it paid, the receipt of which is hereby acknowledged, has RELINQUISHED and forever QUITCLAIMED, and by these presents does RELINQUISH and forever QUITCLAIM unto Grantee, its grantees, successors and assigns, with respect to the Subject Lands only, the right to enter upon the surface of the Subject Lands to explore for and remove the Minerals (including, without limitation, any right to enter upon the surface pursuant to that certain Oil and Gas Lease recorded in the Official Records on November 30, 1972, at Reception No. 1602713, and that certain deed recorded in the Official Records on February 23, 1965, in Book 535 at Reception No. 1457025), it being the

intent hereof to relinquish only the right to enter upon the surface of the Subject Lands to explore for and remove the Minerals and the right to place any facilities upon the surface of the Subject Lands, and to leave in full force and effect all other rights reserved to the Railway in the Deed, it being expressly understood that Anadarko Land's title to the Minerals shall be in no way affected and that Anadarko Land and any lessee, licensee, successor or assign of Anadarko Land shall have the right to remove the Minerals from the Subject Lands by subterranean entries, by means of operations conducted on the surface of other lands or otherwise by any means or methods suitable to Anadarko Land, its lessees, licensees, successors and assigns, but without entering upon or using the surface of the Subject Lands, and in such manner as not to damage the surface of the Subject Lands or to interfere with the use thereof by Grantee, its grantees, successors and assigns.

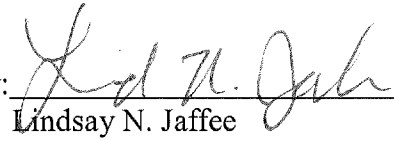

This Relinquishment is made subject to the specific understanding that all of the terms, conditions, provisions and reservations contained in the Deed and not heretofore relinquished shall continue in full force and effect with respect to all lands conveyed thereby and not covered by this Relinquishment, and it is further specifically understood that all the terms, conditions, provisions and reservations contained in that Deed shall continue in full force and effect with respect to the Subject Lands. Further, this Relinquishment is made subject to those certain two easements entered into by and between Grantee and Kerr-McGee Gathering LLC ("Kerr-McGee") on the date first written above, which affect the Subject Lands (the "Easements"), and it is further specifically understood that all the terms, conditions, provisions and the rights granted to Kerr-McGee in and to the Easements shall in no way be affected by this Relinquishment. For the avoidance of doubt, Anadarko Land hereby waives any rights to reasonable accommodation for surface entry as may be provided under Colorado law.

IN WITNESS WHEREOF, Anadarko Land has executed this Relinquishment on the date set forth in the acknowledgment, to be effective on the date first written above.

RIGHT-OF-WAY GRANT

THIS RIGHT-OF-WAY GRANT ("Grant") is made this 3rd day of July, 2018, from **ERIE LAND COMPANY, LLC**, a Delaware limited liability company, whose address is 1550 West McEwen Drive, Suite 200, Franklin, Tennessee, 37067 ("Grantor"), to **KERR-MCGEE GATHERING LLC**, a Colorado limited liability company, whose address is 1099 18th Street, Suite 1800, Denver, Colorado 80202 ("KMGG"). The parties agree as follows:

For and in consideration of Ten Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, conveys and warrants unto "KMGG", its successors and assigns, a perpetual right-of-way and easement to survey, construct, maintain, inspect, operate, repair, replace, modify, change the size of, reconstruct, mark, monitor, abandon or remove, relocate and release, at KMGG's election, one or more pipeline(s), equipment, and all appurtenances, necessary or convenient for the transportation or transmission of oil, gas, petroleum products, water, electricity, electronic data, hydrocarbons and any other substances, whether electronic, fluid, solid or gaseous, and any products, derivatives, combinations or mixtures of any of the foregoing, in, on, over, under, or through the lands situated in Weld County, State of Colorado, being described as follows:

Township 1 NORTH, Range 68 West, 6th pm

Section 21: Part of the W/2

The route and course of the right-of-way and easement conveyed hereby ("Right-of-Way Lands") are more particularly described on Exhibit "A" attached hereto and made a part hereof. The width of the Right-of-Way Lands is sixty feet (60') until the earlier of (i) cessation of construction activity by KMGG, or (ii) 24 months after the date of this Right-of-Way Grant, and thereafter the width of the Right-of-Way Lands is forty feet (40'). If there is a deviation in the Right-of-Way Lands as constructed, then Grantor agrees that upon request from KMGG the parties will execute a Notice of Pipeline Location along with an as-built survey plat to amend the description of the Right-of-Way Lands. Prior to the initial construction on the Right-of-Way Lands, KMGG shall provide Grantor and its agricultural tenants five days' advanced notice of such initial construction.

From time to time after the initial construction of the pipeline(s), KMGG may require the use of the construction work space depicted on said Exhibit "A" to survey, construct, maintain, inspect, operate, repair, alter, replace, modify, change the size of, reconstruct, mark, monitor, abandon or remove the pipelines together with appurtenances. KMGG may use the construction work space from time to time in connection with the rights granted hereby, provided it gives Grantor reasonable notice of such use and provided further that it restores the same as provided below when not in use.

Grantor represents and warrants to KMGG that Grantor is an owner of the Right-of-Way Lands subject to the burden of the Right-of-Way and that Grantor has full right, power and authority to enter into this Grant, subject to the existing matters of record.

Any pipelines and associated infrastructure or improvements constructed within the Right-of-Way Lands pursuant to this Grant (collectively, the "Improvements") shall be installed,

maintained and/or removed in accordance with applicable laws and at KMGG's sole cost and expense.

Any Improvements to be constructed underground pursuant to this Grant shall be placed at a depth of not less than 48 inches below the future finished surface grade of the ground. Grantor agrees not to increase or decrease the surface elevation on the Right-of-Way Lands without KMGG's prior written permission. KMGG shall repair and/or restore any fence(s) on or adjacent to the Right-of-Way Lands that are removed or severed by KMGG in the course of the operations provided for in this Grant to the condition such fence was in prior to its removal or severance by KMGG. If necessary to prevent the escape of Grantor's livestock, KMGG shall construct temporary gates or fences in those areas affected by KMGG's operations as provided for in this Grant.

To the extent reasonably practicable and within a reasonable period of time after completion of construction, KMGG shall level and restore any lands affected by KMGG's operations that have excessive settling and shall sufficiently compact the soil to the condition that existed at the time immediately prior to the placement of KMGG's pipeline(s).

Grantor agrees that Grantor will not build, create, or construct, or permit to be built, created or constructed, any obstruction, building, fence, reservoir, engineering works or other structures or improvements, other than roadways, sidewalks, trails and other utilities as provided for below, over, under, on or across the Right-of-Way Lands without the prior written consent of KMGG, which consent shall not be unreasonably withheld.

KMGG shall have all rights, privileges and benefits necessary or convenient for the full and lawful use and enjoyment of this Grant, including but not limited to the rights of ingress and egress over and across Grantor's lands lying adjacent to the Right-of-Way Lands for any and all purposes reasonably necessary or incidental to exercising KMGG's rights hereunder. Grantor agrees that at KMGG's option, KMGG may pay and discharge any taxes, mortgages or liens existing, levied or assessed on or against the lands burdened by the Right-of-Way easement. If KMGG exercises such option, KMGG shall be subrogated to the rights of the party to whom payment is made, and in addition to its other rights, may reimburse itself out of any rentals, royalties, shut-in royalties, or any other amounts otherwise payable to Grantor from KMGG.

KMGG shall be solely responsible for the operation and maintenance of the Improvements. KMGG shall be obligated to pay for, repair, replace or otherwise compensate Grantor for any damages resulting from KMGG's activities and operations on the Right-of-Way Lands, except for any damage to structures or improvements placed in the Right-of-Way Lands contrary to the terms contained herein, and Grantor shall pay for, reimburse, indemnify and hold KMGG harmless from any and all claims or damages resulting from any of Grantor's or its affiliates, subsidiary entities, contractors and subcontractors activities on the Right-of-Way Lands contrary to the terms contained herein. Grantor shall have the right to use and enjoy and permit others to use and enjoy the Right-of-Way Lands, subject to the rights herein granted to KMGG. KMGG has the obligation to restore the surface per COGCC regulations.

Grantor shall have the right to cross the Right-of-Way Lands with roadways, sidewalks, landscaping, trails and other utilities; provided that, such any such crossings are made at an angle

of not less than sixty (60) degrees and not more than ninety (90) degrees. Grantor shall also have the right to grant easements to third parties for the construction and maintenance of utilities that are within the Right-of-Way Lands identified herein, including those for water, gas, sewer, electric, telephone, cable, television, and fiber optic and other pipelines, all subject to the terms and rights granted to KMGG hereof. Any party including, but not limited to Grantor its successors and assigns, and each of their affiliates, subsidiary entities, contractor and subcontracts shall: (a) notify KMGG in writing (10) days prior to any excavation, grading, construction and maintenance activities that will encroach upon the Right-of-Way lands at 1099 18th Street, Suite 1800, Denver, Colorado, 80202, Attn: Wattenberg Surface Land Manager; (b) allow KMGG and its company representatives to be on-site while any party is performing construction, excavating, grading, or maintenance activities that encroach upon the Right-of-Way Lands; (c) provide KMGG with all project plans ten (10) days prior to such encroachment occurring, for purposes of damage prevention; (d) bear the risk of loss for all damage and/or destruction to any structure, fence, landscaping or Improvement placed within the boundaries of Right-of-Way Lands, and Grantor shall indemnify and hold KMGG harmless from and against any such damages or destruction of structures and Improvements; and (e) not allow foreign pipelines or utility lines of any type to be constructed parallel to any pipeline within the boundaries of the Right-of-Way Lands.

This Grant cannot be modified, except by an instrument in writing signed by Grantor and by an authorized representative of KMGG.

The rights granted herein may be assigned in whole or in part, and the terms, conditions, and provisions of this Grant are a covenant running with the land and shall extend to and be binding upon the successors and assigns of Grantor and of KMGG.

KMGG shall record an original of this Right-of-Way Grant or a Memorandum of Right-of-Way Grant in the records of the County in which the Right-of-Way Lands are located. By recording this Right-of-Way Grant or a Memorandum of Right-of-Way Grant, KMGG shall be deemed to have accepted all of the terms and conditions hereof.

Each party shall keep Grantor's property and the Right-of-Way Lands free from any liens or encumbrances.

This Grant may be executed in counterparts, each of which shall be considered one and the same agreement.

EXCLUSIVE RIGHT-OF-WAY GRANT

THIS RIGHT-OF-WAY GRANT ("Grant") is made this 3rd day of July, 2018, from **ERIE LAND COMPANY, LLC**, a Delaware limited liability company, whose address is 1550 West McEwen Drive, Suite 200, Franklin, Tennessee, 37067 ("Grantor"), to **KERR-MCGEE GATHERING LLC**, a Colorado limited liability company, whose address is 1099 18th Street, Suite 1800, Denver, Colorado 80202 ("KMGG"). The parties agree as follows:

For and in consideration of Ten Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, conveys and warrants unto "KMGG", its successors and assigns, an exclusive perpetual right-of-way and easement to survey, construct, maintain, inspect, operate, repair, replace, modify, change the size of, reconstruct, mark, monitor, abandon or remove, relocate and release, at KMGG's election, one or more pipeline(s), equipment, and all appurtenances, necessary or convenient for the transportation or transmission of oil, gas, petroleum products, water, electricity, electronic data, hydrocarbons and any other substances, whether electronic, fluid, solid or gaseous, and any products, derivatives, combinations or mixtures of any of the foregoing, in, on, over, under, or through the lands situated in Weld County, State of Colorado, being described as follows:

Township 1 NORTH, Range 68 West, 6th pm
Section 21: SW/4

The route and course of the right-of-way and easement conveyed hereby ("Right-of-Way Lands") are more particularly described on Exhibit "A" attached hereto and made a part hereof. The width of the Right-of-Way Lands is fifty feet (50') until the earlier of (i) cessation of construction activity by KMGG, or (ii) 24 months after the date of this Right-of-Way Grant, and thereafter the width of the Right-of-Way Lands is thirty feet (30'). If there is a deviation in the Right-of-Way Lands as constructed, then Grantor agrees that upon request from KMGG the parties will execute a Notice of Pipeline Location along with an as-built survey plat to amend the description of the Right-of-Way Lands. Prior to the initial construction on the Right-of-Way Lands, KMGG shall provide Grantor and its agricultural tenants five days' advanced notice of such initial construction.

From time to time after the initial construction of the pipeline(s), KMGG may require the use of the construction work space depicted on said Exhibit "A" to survey, construct, maintain, inspect, operate, repair, alter, replace, modify, change the size of, reconstruct, mark, monitor, abandon or remove the pipelines together with appurtenances. KMGG may use the construction work space from time to time in connection with the rights granted hereby, provided it gives Grantor reasonable notice of such use and provided further that it restores the same as provided below when not in use.

Grantor represents and warrants to KMGG that Grantor is an owner of the Right-of-Way Lands subject to the burden of the Right-of-Way and that Grantor has full right, power and authority to enter into this Grant, subject to the existing matters of record.

Any pipelines and associated infrastructure or improvements constructed within the Right-of-Way Lands pursuant to this Grant (collectively, the "Improvements") shall be installed, maintained and/or removed in accordance with applicable laws and at KMGG's sole cost and expense.

Any Improvements to be constructed underground pursuant to this Grant shall be placed at a depth of not less than 48 inches below the future finished surface grade of the ground. Grantor agrees not to increase or decrease the surface elevation on the Right-of-Way Lands without KMGG's prior written permission. KMGG shall repair and/or restore any fence(s) on or adjacent to the Right-of-Way Lands that are removed or severed by KMGG in the course of the operations provided for in this Grant to the condition such fence was in prior to its removal or severance by KMGG. If necessary to prevent the escape of Grantor's livestock, KMGG shall construct temporary gates or fences in those areas affected by KMGG's operations as provided for in this Grant.

To the extent reasonably practicable and within a reasonable period of time after completion of construction, KMGG shall level and restore any lands affected by KMGG's operations that have excessive settling and shall sufficiently compact the soil to the condition that existed at the time immediately prior to the placement of KMGG's pipeline(s).

Except for trails and landscaping, Grantor agrees that Grantor will not build, create, or construct, or permit to be built, created or constructed, any obstruction, building, fence, reservoir, engineering works or other structures or improvements over, under, on or across the Right-of-Way Lands without the prior written consent of KMGG, which consent shall not be unreasonably withheld.

KMGG shall have all rights, privileges and benefits necessary or convenient for the full and lawful use and enjoyment of this Grant, including but not limited to the rights of ingress and egress over and across Grantor's lands lying adjacent to the Right-of-Way Lands for any and all purposes reasonably necessary or incidental to exercising KMGG's rights hereunder. Grantor agrees that at KMGG's option, KMGG may pay and discharge any taxes, mortgages or liens existing, levied or assessed on or against the lands burdened by the Right-of-Way easement. If KMGG exercises such option, KMGG shall be subrogated to the rights of the party to whom payment is made, and in addition to its other rights, may reimburse itself out of any rentals, royalties, shut-in royalties, or any other amounts otherwise payable to Grantor from KMGG.

KMGG shall be solely responsible for the operation and maintenance of the Improvements. KMGG shall be obligated to pay for, repair, replace or otherwise compensate Grantor for any damages resulting from KMGG's activities and operations on the Right-of-Way Lands, except for any damage to structures or improvements placed in the Right-of-Way Lands contrary to the terms contained herein, and Grantor shall pay for, reimburse, indemnify and hold KMGG harmless from any and all claims or damages resulting from any of Grantor's or its affiliates, subsidiary entities, contractors and subcontractors activities on the Right-of-Way Lands contrary to the terms contained herein. Grantor shall have the right to use and enjoy and permit others to use and enjoy the Right-of-Way Lands, subject to the rights herein granted to KMGG. KMGG has the obligation to restore the surface per COGCC regulations.

This Grant cannot be modified, except by an instrument in writing signed by Grantor and by an authorized representative of KMGG.

The rights granted herein may be assigned in whole or in part, and the terms, conditions, and provisions of this Grant are a covenant running with the land and shall extend to and be binding upon the successors and assigns of Grantor and of KMGG.

KMGG shall record an original of this Right-of-Way Grant or a Memorandum of Right-of-Way Grant in the records of the County in which the Right-of-Way Lands are located. By recording this Right-of-Way Grant or a Memorandum of Right-of-Way Grant, KMGG shall be deemed to have accepted all of the terms and conditions hereof.

Each party shall keep Grantor's property and the Right-of-Way Lands free from any liens or encumbrances.

This Grant may be executed in counterparts, each of which shall be considered one and the same agreement.

SETBACK WAIVER

This **Setback Waiver** ("*Waiver*"), is made and delivered this 3rd day of July, 2018 by ERIE LAND COMPANY, LLC, a Delaware limited liability company ("*Surface Owner*") with an address of 1550 West McEwen Drive, Suite 200, Franklin, Tennessee, 37067, to and in favor of Kerr-McGee Oil & Gas Onshore LP ("*Kerr-McGee*").

Recitals

- A. Surface Owner owns the surface estate in certain lands in Weld County, Colorado, generally described as the West half of Section 21, Township 1 North, Range 68 West, and more specifically described in the attached Exhibit A-1 (which is incorporated into this Waiver) and referred to herein as the "*Property*."
- B. Kerr-McGee owns oil and gas interests in the Property as well as certain other acreage in proximity thereto. Kerr-McGee's oil and gas interests in the Property and such other lands include the right to drill and operate wells, install production facilities and conduct such other activities as are incidental to or associated with oil and gas development operations.
- C. The rules and regulations of the Colorado Oil and Gas Conservation Commission ("*COGCC*") govern the distance between a wellhead and public roads, production facilities, buildings, building units and surface property lines, among other things. Such rules also provide for variances and exceptions to those "setback" distances upon proper waivers from impacted owners.
- D. As a part of mutual accommodations that have been agreed upon by the parties, Surface Owner has agreed to furnish this Waiver to Kerr-McGee in order facilitate the development of its oil and gas rights in the Property and the other lands in close proximity thereto.

Now, therefore, in consideration of the recitals set forth above and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Surface Owner hereby waives to the fullest extent possible all setback and notification requirements in COGCC Rules 305, 306, 603 and 604 including any successor rules or amendments, as well as Exception Zone setbacks, Urban Mitigation Area requirements, and any other state or local setback or distance-based requirements or regulations that would condition, constrain or prohibit the rights of Kerr-McGee to explore for and produce oil and gas from, or to locate wells and production facilities on Section 21, Township 1 North, Range 68 West or the surrounding sections immediately adjacent or contiguous thereto. Consistent with this Waiver, Surface Owner, and its successors and assigns, covenant and agree that it shall not to object to the location of wells and production facilities by Kerr-McGee on said Section 21 or the surrounding sections on the basis of setback requirements in the COGCC rules and regulations or any other applicable state or local setback requirement.

Surface Owner acknowledges that Kerr-McGee may cite or provide a copy of this Waiver in order to obtain exceptions and variances from the COGCC or from any other state or local body having jurisdiction over oil and gas operations. Surface Owner agrees that this Waiver satisfies any requirement for a waiver or consent by the surface owner, Building Unit Owner (as that term is defined in the COGCC Rules), resident or homeowner in connection with a variance request by Kerr-McGee. In addition, Surface Owner, and its successors and assigns, agree to execute and deliver to Kerr-McGee any additional consents or waivers reasonably requested by Kerr-McGee or required by governmental agency in order to give full effect to the purposes hereof, including waivers for Urban Mitigation, as well as waivers that may be needed for the exploration and production of oil and gas from, or the location of wells, production facilities or other equipment on the Property or other property owned by Surface Owner in Section 21 or the sections immediately adjacent or contiguous thereto.

It is an essential purpose of this Waiver that Surface Owner provide notice to all buyers and assignees of an interest in the Property (or any portion thereof), including all builders, property owners, property owners' associations, and special districts (each, a "*Future Owner*") of the existence of this Waiver. In addition, Surface Owner will notify Future Owners that, as successors in interest to Surface Owner, Future Owners will be bound by this Waiver and will assume the obligations undertaken by Surface Owner pursuant to this Waiver, including but not limited to, the waiver of all setbacks and the obligation to provide notice to Future Owners. Recordation of this Waiver in the Office of the Clerk and Recorder of Weld County, Colorado (the "*Records*") shall be deemed satisfaction of the foregoing notice requirements. It is expressly understood and agreed by Surface Owner and Kerr-McGee that the waivers, notice requirements and the obligations assumed by Future Owners as set forth in this Waiver are, and shall be construed to be, covenants that run with the Property and shall both bind and inure to the benefit of the parties hereto, their respective successors and assigns. LEGAL DESCRIPTION OF THE LANDS

ALSO DEPICTED AS:

TERMINATION OF SURFACE OWNER'S AGREEMENT

THIS TERMINATION OF SURFACE OWNER'S AGREEMENT ("Agreement") is effective this 3rd day of July, 2018, by and between ANADARKO E&P ONSHORE LLC, formerly known as Union Pacific Resources Company and Champlin Petroleum Company ("Anadarko E&P"), and ERIE LAND COMPANY, LLC, a Delaware limited liability company ("Surface Owner").

Recitals

A. Surface Owner owns the surface estate for property located in Weld County, Colorado, described as a portion of the W/2 of Section 21, Township 1 North, Range 68 West, which is hereinafter referred to as the "Property" and specifically described in Exhibit A.

B. Patricia S. Ackard and Champlin Petroleum Company ("Champlin") entered into a Surface Owner's Agreement dated May 20, 1974 and recorded July 10, 1974 at Reception No. 1640298 in the Office of the Clerk and Recorder of Weld County (the "Surface Owner's Agreement").

C. Anadarko E&P is the successor in interest to Champlin.

D. Surface Owner is the successor in interest to Patricia S. Ackard.

E. This Agreement may be executed in counterparts, each of which shall be deemed an original and together of which shall constitute one and the same instrument.

NOW THEREFORE, in consideration of the covenants and mutual promises set forth in this Agreement, including in the recitals, the parties agree as follows:

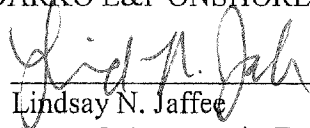

1. The Surface Owner's Agreement is hereby terminated and of no further force and effect as of the effective date of this Agreement.

2. Surface Owner, for themselves and on behalf of each of their agents, tenants, sublessees, employees, officers, directors, members, managers, general and/or limited partners, attorneys, representatives, and all of their respective heirs, executors, legal representatives, administrators, successors and assigns ("Landowner Releasors") hereby release, acquit and forever discharge Anadarko E&P and each of their representative parents, subsidiaries, affiliated corporations or entities, officers, directors, employees, heirs, executors, legal representatives, administrators, predecessors, successors and assigns (the "Anadarko Released Entities") from any and all claims or causes of action, demands, damages, debts, losses, costs, liens, liabilities, obligations, suits or actions, at law or in equity, in contract, in tort or under any statute or regulation, as well as any character or kind of action which Surface Owner or any of the Landowner Releasors have or may have, now or in the future, or may hereafter claim to hold or possess in whole or in

part against Anadarko E&P or any of the Anadarko Released Entities for any and all periods of accounting prior to and including the effective date of this Agreement, concerning or relating to the calculation and payment of surface owners payments under the Surface Owner's Agreement, whether directly or indirectly, proximately or remotely ("Landowner Released Claims"). Surface Owner, for themselves and on behalf of the Landowner Releasors, covenants not to sue Anadarko E&P or any of the Anadarko Released Entities for any of the Landowner Released Claims.

The parties have executed this Agreement on the dates set forth in the acknowledgments, but to be effective on the date written above.
