\$456,219.00 base rentals interest component for lease/purchase of CBT Units	04/15/2020

<b>Commitment</b>	<b>Due Date</b>
Second Payment on Bijou CBT Lease: \$0-\$130,000.00 (depending on setting of supplemental quota of 0-0.5 AF per AF Unit). <sup>6</sup>	Approximately 05/01/2020 (30 days after invoice, supplemental quota set 4/12/2020)
Approximately \$34,832,528.00 for construction of Windy Gap Firing Project. <sup>7</sup>	Approximately 09/01/2020
Approximately \$380,000.00 to NCWCD for 2019 Assessments on 7,381 CBT Units and municipal assessments on 980 CBT Units leased from Bijou Irrigation Company.	Approximately 10/01/2020
\$1,597,437.00 base rentals interest and principal components for lease/purchase of CBT Units	10/15/2020
Approximately \$132,600.00 for lease of CBT Units from Bijou based on 50% initial quota <sup>6</sup>	Approximately 12/01/2020 (invoice after 11/2020 initial quota setting)
Approximately \$55,000.00 to Municipal Subdistrict for Windy Gap carriage charges	12/31/2020

1. The assessments have not been set beyond the 2019 water year. This figure assumes that the previous year assessment will be increased within a range based upon the results of the recent NCWCD rate study. It also assumes that the Town will take equal deliveries of CBT water through the SWSP and the Erie Pipeline. Assessments for deliveries through the Erie Pipeline are \$.50 more per Unit. This figure also includes the assessments for 1,312 CBT Units owned by the Town of Erie Finance Corporation and the municipal assessments on the 980 Units leased from Bijou Irrigation Company.

2. NISP participation costs continue to change. This is the estimate provided in June, 2019, plus an estimate of \$200,000.00 for interest on interim financing.

3. The 2020 Windy Gap Firing Project budget has not yet been made available by NCWCD. In addition, the date for issuance of bonds for the pooled financing has not been determined.

4. The need to carry over water should be decided after the initial quota is set in November, 2019. If the Town elects to carry over water, the actual deadline for CBT carryover assessments is April 30, 2020. However, if the Town does carry over, it is recommended that these assessments be paid as soon as possible so that the carryover water can be used. It is also based upon estimates of CBT assessments for 2019, which have not yet been determined by the NCWCD Board.

5. Ditch assessments for 2020 will not be determined until early in 2020. These are estimates based on an approximate 10% increase over the 2019 assessments.

6. The Bijou Irrigating Company lease payment for 980 CBT Units is based upon quotas for CBT Units set by NCWCD.

7. Construction funds for the Windy Gap Firing Project will likely be obtained through pooled financing among the Participants. The timing, details and costs of that financing will be developed over the next year. This is included herein as a placeholder.
