### SUBJECT: GENERAL BUSINESS

**A Resolution of the Board of Trustees of the Town of Erie approving an Agreement for Professional Services with Lithos Engineering for Erie Parkway and I-25 Mine Subsidence Evaluation**

**DEPARTMENT:** Economic Development

**PRESENTER:** Ben Pratt, Economic Development Director

**TIME ESTIMATE:** 10 minutes

### FISCAL SUMMARY:

Cost as Recommended: \$115,300  
Balance Available: \$100,000  
Budget Line Item Number: 100-20-910-560100-100282  
New Appropriation Required: \$15,300

### STAFF RECOMMENDATION:

Approve the resolution to enter a service agreement with Lithos Engineering. This is a sole source contract due to the specialized experience and knowledge of the project area. They are also linked to CGRS an existing contractor for the project area.

### SUMMARY AND BACKGROUND OF SUBJECT MATTER:

The Town has requested Lithos Engineering to assist in evaluating undermining and other geotechnical aspects of the Town owned land located northwest of the Erie Parkway and Interstate-25 intersection (the I-25 Gateway site).

The project site is mapped as extensively undermined by the Eagle Mine at depths between approximately 250 and 400 feet. The site is bounded to the south, east, and north by Erie Parkway, I-25, and CR-10, respectively, and extends

approximately 0.5 miles west of I-25. As with most of the historic coal mines in the area, it is believed the mine boundaries are controlled by geologic faulting and coal quality. The existing coal mine maps often do not account for all of the coal mining in the area. It is common for additional mine workings to be encountered in areas not mapped as undermined.

Based on conversations between Lithos and the Town of Erie, Lithos proposes to: 1) Evaluate coal mine presence and depths, 2) Estimate accuracy of the existing coal mine extents and characteristics, 3) Evaluate subsidence hazards associated with the site, and 4) provide recommendations to reduce coal mine subsidence risk during site development and for the life of potential structures.

Fiscal Impact: \$115,300

**Board Priority(s) Addressed:**

- ✓ Attractive Community Amenities
- ✓ Prosperous Economy
- ✓ Safe and Healthy Community
- ✓ Fiscally Responsible
