**Why are you interested in serving on a board or commission and what specific talents or expertise do you bring if appointed?**

I live in the Airpark on the East side interfacing with most of commercial and industrial development at the airport. I'm interested in the future of the airport, seeing is continued growth and financial contribution to the town that is compatible with the airports residential community. The airport and the surrounding property has so much untapped potential to drive economic growth for the town, and I would like to see more use of the airport by the development around it

---

**Have you served on another board/commission in an advisory capacity? If so, please describe the board and what made serving in that capacity a good experience? What were the major concerns or issues?**

I have not served on a board/commission before

---

**Please describe a situation where you were working with a small group and disagreed with the direction of the project, what did you do? What was the result?**

In my position as an IT director, I have had disagreements on the most effective ways to implement technology solutions. My go-to approach is to assume positive intent, and understand what drives a different visions on how to reach a common goal. Sometimes, different views are actually largely miscommunication of agreement. When there is a true disagreement having the group work to understand the roots of opinions usually also a path for forward progress, even when there isn't unanimous agreement.

---

**If you were appointed, what goals would you like to see accomplished on this board or commission?**

I would like to see more aircraft storage options made available to the aviation community, and development of businesses that take advantage of the unique advantage of the opportunities the airport can provide.

---

**Are you aware of the time commitment, and do you have the personal time to devote to this board or commission?**

Yes
