Why are you interested in serving on a board or commission and what specific talents or expertise do you bring if appointed? Continue service to community with my expertise in Trees and landscaping from previous occupation.

Have you served on another board/commission in an advisory capacity? If so, please describe the board and what made serving in that capacity a good experience? What were the major concerns or issues? N/A

Please describe a situation where you were working with a small group and disagreed with the direction of the project, what did you do? What was the result? As I have previously answered this question a couple of times I would refer to my answers there. Working in a group requires compromise and understanding as to where differing views are coming from. Our tree board works well as a group.

If you were appointed, what goals would you like to see accomplished on this board or commission? We are working on a number of new projects and continuing to do our regular annual commitments to further community involvement and understanding of various tree and park issues for the town. Growing involvement in our Arbor Day event is my #1 issue now.

Are you aware of the time commitment, and do you have the personal time to devote to this board or commission? Yes I have had no issues with this in the past
