Although Council did not raise concerns about this project when staff presented on it during the Council's March 18 meeting, due to questions that have come up since then about resident awareness of and potentially support for this development, we need to postpone the Planning Commission's and Council's consideration of the I-25 Gateway PD until after we have a chance to discuss this project further with Council in study session and determine whether we need more community engagement, including potential survey questions, on this.

Accordingly, **please retract the application from PC and Council consideration at this time.** We will schedule that consideration for a later date.
