Interests & Experiences

Why are you interested in serving on a board or commission and what specific talents or expertise do you bring if appointed?

I am interested in serving on the Tree Advisory Board in the hopes of lending help in an area that I am passionate about and in a field that I have many years of experience. I have been working in the "green" industry for almost 30 years. I worked as a garden center sales person and a landscape coordinator at Forever Green Nurseries in Iowa. I then worked as a landscaper for several years. I am currently managing the live goods business at the North Thornton Home Depot. I received a master gardener certification through the Adam's County Extension Office about 20 years ago. I really believe my experience and knowledge can assist the Tree Advisory Board in making Erie even more amazing than it already is.

Have you served on another board/commission in an advisory capacity? If so, please describe the board and what made serving in that capacity a good experience? What were the major concerns or issues?

N/A

Please describe a situation where you were working with a small group and disagreed with the direction of the project, what did you do? What was the result?

I have been working in small groups for my entire career. There can often be disagreements within the group but the important thing to remember is that listening and respectful communication are the keys to overcoming disagreements. Quite often the best product stems from listening to everyone's thoughts and ideas and working together to come up with the best solution.

If you were appointed, what goals would you like to see accomplished on this board or commission?

If I were appointed to the Tree Advisory Board I would like to learn as much as I can about the current missions and goals of the Tree Board and then offer up my time, energy, ideas, and creativity to help make this board as successful as possible. I have lived in Erie for almost 12 years and this town has become very dear to me and my family in that time. I want to use my knowledge and talents to help make Erie even more amazing and beautiful.

Are you aware of the time commitment, and do you have the personal time to devote to this board or commission?

I am aware of the time commitment and I do have the personal time to devote to the Tree Board.
